Buffalo, Erie County
Remedial Work Plan & Decision Document

Dear Dr. Dagher:

The New York State Department of Environmental Conservation (Department) and the New York State Department of Health (NYSDOH) have reviewed the Remedial Investigation/Interim Remedial Measures/Alternatives Analysis Report (RI/IRM/AAR) for the 1155 Main Street site dated September 2019 and prepared by Benchmark Environmental Engineering and Science, PLLC on behalf of the Main & Dodge LLC. The RI/IRM/AAR is hereby approved. Please ensure that a copy of the approved report is placed in the document repositories. Any draft versions of this report should be removed from the repositories.

Attached is a copy of the Department's Decision Document for the site. Based on the information contained in the RI/IRM/AAR, the Department concluded that No Further Action is required at the site and this decision is reflected in the Decision Document. Please ensure that a copy of the Decision Document is placed in the document repositories.

If you have any questions regarding the above, please contact the Department's Project Manager, Damianos Skaros, at (716) 851-7220 or damianos.skaros@dec.ny.gov.

Sincerely,

Michael J. Cruden, P.E.
Director
