

BROWNFIELD CLEANUP PROGRAM (BCP) APPLICATION FORM

DEC requires an application to request major changes to the description of the property set forth in a Brownfield Cleanup Agreement, or "BCA" (e.g., adding a significant amount of new property, or adding property that could affect an eligibility determination due to contamination levels or intended land use). Such application must be submitted and processed in the same manner as the original application, including the required public comment period. **Is this an application to amend an existing BCA?**

Yes No If yes, provide existing site number: _____

PART A (note: application is separated into Parts A and B for DEC review purposes) *BCP App Rev 10*

Section I. Requestor Information - See Instructions for Further Guidance		DEC USE ONLY BCP SITE #:
NAME City of Lackawanna		
ADDRESS 714 Ridge Road		
CITY/TOWN Lackawanna, NY		ZIP CODE 14218
PHONE 716-827-6421	FAX	E-MAIL development@lackny.com
<p>Is the requestor authorized to conduct business in New York State (NYS)? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <ul style="list-style-type: none"> If the requestor is a Corporation, LLC, LLP or other entity requiring authorization from the NYS Department of State to conduct business in NYS, the requestor's name must appear, exactly as given above, in the NYS Department of State's Corporation & Business Entity Database. A print-out of entity information from the database must be submitted to the New York State Department of Environmental Conservation (DEC) with the application to document that the requestor is authorized to do business in NYS. Please note: If the requestor is an LLC, the members/owners names need to be provided on a separate attachment. <p>Do all individuals that will be certifying documents meet the requirements detailed below? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <ul style="list-style-type: none"> Individuals that will be certifying BCP documents, as well as their employers, meet the requirements of Section 1.5 of DER-10: Technical Guidance for Site Investigation and Remediation and Article 145 of New York State Education Law. Documents that are not properly certified will be not approved under the BCP. 		

Section II. Project Description	
1. What stage is the project starting at?	<input checked="" type="checkbox"/> Investigation <input type="checkbox"/> Remediation
<p>NOTE: If the project is proposed to start at the remediation stage, a Remedial Investigation Report (RIR) at a minimum is required to be attached, resulting in a 30-day public comment period. If an Alternatives Analysis and Remedial Work Plan are also attached (see DER-10 / Technical Guidance for Site Investigation and Remediation for further guidance) then a 45-day public comment period is required.</p>	
2. If a final RIR is included, please verify it meets the requirements of Environmental Conservation Law (ECL) Article 27-1415(2):	<input type="checkbox"/> Yes <input type="checkbox"/> No
3. Please attach a short description of the overall development project, including:	
<ul style="list-style-type: none"> the date that the remedial program is to start; and the date the Certificate of Completion is anticipated. 	

Section III. Property's Environmental History

All applications **must include** an Investigation Report (per ECL 27-1407(1)). The report must be sufficient to establish contamination of environmental media on the site above applicable Standards, Criteria and Guidance (SCGs) based on the reasonably anticipated use of the property.

To the extent that existing information/studies/reports are available to the requestor, please attach the following (**please submit the information requested in this section in electronic format only**):

- 1. Reports:** an example of an Investigation Report is a Phase II Environmental Site Assessment report prepared in accordance with the latest American Society for Testing and Materials standard (ASTM E1903). **Please submit a separate electronic copy of each report in Portable Document Format (PDF).**

2. SAMPLING DATA: INDICATE KNOWN CONTAMINANTS AND THE MEDIA WHICH ARE KNOWN TO HAVE BEEN AFFECTED. LABORATORY REPORTS SHOULD BE REFERENCED AND COPIES INCLUDED.

Contaminant Category	Soil	Groundwater	Soil Gas
Petroleum			
Chlorinated Solvents	X		
Other VOCs	X	X	
SVOCs	X		
Metals	X	X	
Pesticides			
PCBs			
Other*			

*Please describe: Acetone/ Metals

3. FOR EACH IMPACTED MEDIUM INDICATED ABOVE, INCLUDE A SITE DRAWING INDICATING:

- SAMPLE LOCATION
- DATE OF SAMPLING EVENT
- KEY CONTAMINANTS AND CONCENTRATION DETECTED
- FOR SOIL, HIGHLIGHT IF ABOVE REASONABLY ANTICIPATED USE
- FOR GROUNDWATER, HIGHLIGHT EXCEEDANCES OF 6NYCRR PART 703.5
- FOR SOIL GAS/ SOIL VAPOR/ INDOOR AIR, HIGHLIGHT IF ABOVE MITIGATE LEVELS ON THE NEW YORK STATE DEPARTMENT OF HEALTH MATRIX

THESE DRAWINGS ARE TO BE REPRESENTATIVE OF ALL DATA BEING RELIED UPON TO MAKE THE CASE THAT THE SITE IS IN NEED OF REMEDIATION UNDER THE BCP. DRAWINGS SHOULD NOT BE BIGGER THAN 11" X 17". THESE DRAWINGS SHOULD BE PREPARED IN ACCORDANCE WITH ANY GUIDANCE PROVIDED.

ARE THE REQUIRED MAPS INCLUDED WITH THE APPLICATION?*

(*answering No will result in an incomplete application)

Yes No

4. INDICATE PAST LAND USES (CHECK ALL THAT APPLY):

- | | | | |
|---|--|---|--|
| <input type="checkbox"/> Coal Gas Manufacturing | <input type="checkbox"/> Manufacturing | <input type="checkbox"/> Agricultural Co-op | <input type="checkbox"/> Dry Cleaner |
| <input type="checkbox"/> Salvage Yard | <input type="checkbox"/> Bulk Plant | <input type="checkbox"/> Pipeline | <input type="checkbox"/> Service Station |
| <input type="checkbox"/> Landfill | <input type="checkbox"/> Tannery | <input type="checkbox"/> Electroplating | <input type="checkbox"/> Unknown |

Other: Previous School/ Commercial use for former Friendship House

Section IV. Property Information - See Instructions for Further Guidance

PROPOSED SITE NAME Former Friendship House of WNY

ADDRESS/LOCATION 100 Dona Street

CITY/TOWN Lackawanna ZIP CODE 14218

MUNICIPALITY(IF MORE THAN ONE, LIST ALL): City of Lackawanna

COUNTY Erie SITE SIZE (ACRES) 2.2

LATITUDE (degrees/minutes/seconds)

42 ° 48 ' 58.18 "

LONGITUDE (degrees/minutes/seconds)

78 ° 50 ' 33.93 "

Complete tax map information for all tax parcels included within the proposed site boundary. If a portion of any lot is proposed, please indicate as such by inserting "P/O" in front of the lot number in the appropriate box below, and only include the acreage for that portion of the tax parcel in the corresponding far right column. ATTACH REQUIRED MAPS PER THE APPLICATION INSTRUCTIONS.

Parcel Address	Section No.	Block No.	Lot No.	Acreage
100 Dona Street	141.67	3	1	2.2

1. Do the proposed site boundaries correspond to tax map metes and bounds? Yes No
If no, please attach an accurate map of the proposed site.

2. Is the required property map attached to the application? Yes No
(application will not be processed without map)

3. Is the property within a designated Environmental Zone (En-zone) pursuant to Tax Law 21(b)(6)?
(See [DEC's website](#) for more information) Yes No

If yes, identify census tract : 174

Percentage of property in En-zone (check one): 0-49% 50-99% 100%

4. Is this application one of multiple applications for a large development project, where the development project spans more than 25 acres (see additional criteria in BCP application instructions)? Yes No

If yes, identify name of properties (and site numbers if available) in related BCP applications: _____

5. Is the contamination from groundwater or soil vapor solely emanating from property other than the site subject to the present application? Yes No

6. Has the property previously been remediated pursuant to Titles 9, 13, or 14 of ECL Article 27, Title 5 of ECL Article 56, or Article 12 of Navigation Law? Yes No

If yes, attach relevant supporting documentation.

7. Are there any lands under water? Yes No
If yes, these lands should be clearly delineated on the site map.

Section IV. Property Information (continued)

8. Are there any easements or existing rights of way that would preclude remediation in these areas? If yes, identify here and attach appropriate information. Yes No

Easement/Right-of-way Holder

Description

9. List of Permits issued by the DEC or USEPA Relating to the Proposed Site (type here or attach information)

Type

Issuing Agency

Description

10. Property Description and Environmental Assessment – **please refer to application instructions for the proper format of each narrative requested.**

Are the Property Description and Environmental Assessment narratives included in the **prescribed format**? Yes No

Note: Questions 11 through 13 only pertain to sites located within the five counties comprising New York City

11. Is the requestor seeking a determination that the site is eligible for tangible property tax credits? Yes No

If yes, requestor must answer questions on the supplement at the end of this form.

12. Is the Requestor now, or will the Requestor in the future, seek a determination that the property is Upside Down? Yes No

13. If you have answered Yes to Question 12, above, is an independent appraisal of the value of the property, as of the date of application, prepared under the hypothetical condition that the property is not contaminated, included with the application? Yes No

NOTE: If a tangible property tax credit determination is not being requested in the application to participate in the BCP, the applicant may seek this determination at any time before issuance of a certificate of completion by using the BCP Amendment Application, except for sites seeking eligibility under the underutilized category.

If any changes to Section IV are required prior to application approval, a new page, initialed by each requestor, must be submitted.

Initials of each Requestor: _____

BCP application - PART B (note: application is separated into Parts A and B for DEC review purposes)

PROVIDE A LIST OF PREVIOUS PROPERTY OWNERS AND OPERATORS WITH NAMES, LAST KNOWN ADDRESSES AND TELEPHONE NUMBERS AS AN ATTACHMENT. DESCRIBE REQUESTOR'S RELATIONSHIP, TO EACH PREVIOUS OWNER AND OPERATOR, INCLUDING ANY RELATIONSHIP BETWEEN REQUESTOR'S CORPORATE MEMBERS AND PREVIOUS OWNER AND OPERATOR. IF NO RELATIONSHIP, PUT "NONE".

IF REQUESTOR IS NOT THE CURRENT OWNER, DESCRIBE REQUESTOR'S RELATIONSHIP TO THE CURRENT OWNER, INCLUDING ANY RELATIONSHIP BETWEEN REQUESTOR'S CORPORATE MEMBERS AND THE CURRENT OWNER.

Section VII. Requestor Eligibility Information (Please refer to ECL § 27-1407)

If answering "yes" to any of the following questions, please provide an explanation as an attachment.

1. Are any enforcement actions pending against the requestor regarding this site? Yes No
2. Is the requestor subject to an existing order for the investigation, removal or remediation of contamination at the site? Yes No
3. Is the requestor subject to an outstanding claim by the Spill Fund for this site? Any questions regarding whether a party is subject to a spill claim should be discussed with the Spill Fund Administrator. Yes No

Section VII. Requestor Eligibility Information (continued)

4. Has the requestor been determined in an administrative, civil or criminal proceeding to be in violation of i) any provision of the ECL Article 27; ii) any order or determination; iii) any regulation implementing Title 14; or iv) any similar statute, regulation of the state or federal government? If so, provide an explanation on a separate attachment. Yes No
5. Has the requestor previously been denied entry to the BCP? If so, include information relative to the application, such as name, address, DEC assigned site number, the reason for denial, and other relevant information. Yes No
6. Has the requestor been found in a civil proceeding to have committed a negligent or intentionally tortious act involving the handling, storing, treating, disposing or transporting of contaminants? Yes No
7. Has the requestor been convicted of a criminal offense i) involving the handling, storing, treating, disposing or transporting of contaminants; or ii) that involves a violent felony, fraud, bribery, perjury, theft, or offense against public administration (as that term is used in Article 195 of the Penal Law) under federal law or the laws of any state? Yes No
8. Has the requestor knowingly falsified statements or concealed material facts in any matter within the jurisdiction of DEC, or submitted a false statement or made use of or made a false statement in connection with any document or application submitted to DEC? Yes No
9. Is the requestor an individual or entity of the type set forth in ECL 27-1407.9 (f) that committed an act or failed to act, and such act or failure to act could be the basis for denial of a BCP application? Yes No
10. Was the requestor's participation in any remedial program under DEC's oversight terminated by DEC or by a court for failure to substantially comply with an agreement or order? Yes No
11. Are there any unregistered bulk storage tanks on-site which require registration? Yes No

THE REQUESTOR MUST CERTIFY THAT HE/SHE IS EITHER A PARTICIPANT OR VOLUNTEER IN ACCORDANCE WITH ECL 27-1405 (1) BY CHECKING ONE OF THE BOXES BELOW:

PARTICIPANT

A requestor who either 1) was the owner of the site at the time of the disposal of hazardous waste or discharge of petroleum or 2) is otherwise a person responsible for the contamination, unless the liability arises solely as a result of ownership, operation of, or involvement with the site subsequent to the disposal of hazardous waste or discharge of petroleum.

VOLUNTEER

A requestor other than a participant, including a requestor whose liability arises solely as a result of ownership, operation of or involvement with the site subsequent to the disposal of hazardous waste or discharge of petroleum.

NOTE: By checking this box, a requestor whose liability arises solely as a result of ownership, operation of or involvement with the site certifies that he/she has exercised appropriate care with respect to the hazardous waste found at the facility by taking reasonable steps to: i) stop any continuing discharge; ii) prevent any threatened future release; iii) prevent or limit human, environmental, or natural resource exposure to any previously released hazardous waste.

If a requestor whose liability arises solely as a result of ownership, operation of or involvement with the site, submit a statement describing why you should be considered a volunteer – be specific as to the appropriate care taken.

Section VII. Requestor Eligibility Information (continued)

Requestor Relationship to Property (check one):

Previous Owner Current Owner Potential /Future Purchaser Other _____

If requestor is not the current site owner, **proof of site access sufficient to complete the remediation must be submitted**. Proof must show that the requestor will have access to the property before signing the BCA and throughout the BCP project, including the ability to place an easement on the site Is this proof attached?

Yes No

Note: a purchase contract does not suffice as proof of access.

Section VIII. Property Eligibility Information - See Instructions for Further Guidance

1. Is / was the property, or any portion of the property, listed on the National Priorities List?
If yes, please provide relevant information as an attachment. Yes No
2. Is / was the property, or any portion of the property, listed on the NYS Registry of Inactive Hazardous Waste Disposal Sites pursuant to ECL 27-1305? Yes No
If yes, please provide: Site # _____ Class # _____
3. Is / was the property subject to a permit under ECL Article 27, Title 9, other than an Interim Status facility? Yes No
If yes, please provide: Permit type: _____ EPA ID Number: _____
Date permit issued: _____ Permit expiration date: _____
4. If the answer to question 2 or 3 above is yes, is the site owned by a volunteer as defined under ECL 27-1405(1)(b), or under contract to be transferred to a volunteer? Attach any information available to the requestor related to previous owners or operators of the facility or property and their financial viability, including any bankruptcy filing and corporate dissolution documentation. Yes No
5. Is the property subject to a cleanup order under Navigation Law Article 12 or ECL Article 17 Title 10? Yes No
If yes, please provide: Order # _____
6. Is the property subject to a state or federal enforcement action related to hazardous waste or petroleum? Yes No
If yes, please provide explanation as an attachment.

Section IX. Contact List Information

To be considered complete, the application must include the Brownfield Site Contact List in accordance with [DER-23 / Citizen Participation Handbook for Remedial Programs](#). Please attach, at a minimum, the names and addresses of the following:

1. The chief executive officer and planning board chairperson of each county, city, town and village in which the property is located.
2. Residents, owners, and occupants of the property and properties adjacent to the property.
3. Local news media from which the community typically obtains information.
4. The public water supplier which services the area in which the property is located.
5. Any person who has requested to be placed on the contact list.
6. The administrator of any school or day care facility located on or near the property.
7. The location of a document repository for the project (e.g., local library). **If the site is located in a city with a population of one million or more, add the appropriate community board as an additional document repository.** In addition, attach a copy of an acknowledgement from each repository indicating that it agrees to act as the document repository for the site.

Section X. Land Use Factors

1. What is the current municipal zoning designation for the site? mixed residential

What uses are allowed by the current zoning? (Check boxes, below)

Residential Commercial Industrial

If zoning change is imminent, please provide documentation from the appropriate zoning authority.

2. Current Use: Residential Commercial Industrial Vacant Recreational (check all that apply)

Attach a summary of current business operations or uses, with an emphasis on identifying possible contaminant source areas. If operations or uses have ceased, provide the date.

3. Reasonably anticipated use Post Remediation: Residential Commercial Industrial (check all that apply) **Attach a statement detailing the specific proposed use.**

If residential, does it qualify as single family housing? Yes No

4. Do current historical and/or recent development patterns support the proposed use?

Yes No

See Section X in Supplemental information attached to this form

5. Is the proposed use consistent with applicable zoning laws/maps? Briefly explain below, or attach additional information and documentation if necessary.

Yes No

See Section X in Supplemental information attached to this form

6. Is the proposed use consistent with applicable comprehensive community master plans, local waterfront revitalization plans, or other adopted land use plans? Briefly explain below, or attach additional information and documentation if necessary.

Yes No

See Section X in Supplemental information attached to this form

XI. Statement of Certification and Signatures

(By requestor who is an individual)

If this application is approved, I hererby acknowledge and agree: (1) to execute a Brownfield Cleanup Agreement (BCA) within 60 days of the date of DEC’s approval letter; (2) to the general terms and conditions set forth in the *DER-32, Brownfield Cleanup Program Applications and Agreements*; and (3) that in the event of a conflict between the general terms and conditions of participation and the terms contained in a site-specific BCA, the terms in the site-specific BCA shall control. Further, I hereby affirm that information provided on this form and its attachments is true and complete to the best of my knowledge and belief. I am aware that any false statement made herein is punishable as a Class A misdemeanor pursuant to section 210.45 of the Penal Law.

Date: _____ Signature: _____

Print Name: _____

(By a requestor other than an individual)

I hereby affirm that I am _____ (title) of _____ (entity); that I am authorized by that entity to make this application and execute the Brownfield Cleanup Agreement (BCA) and all subsequent amendments; that this application was prepared by me or under my supervision and direction. If this application is approved, I acknowledge and agree: (1) to execute a BCA within 60 days of the date of DEC’s approval letter; (2) to the general terms and conditions set forth in the *DER-32, Brownfield Cleanup Program Applications and Agreements*; and (3) that in the event of a conflict between the general terms and conditions of participation and the terms contained in a site-specific BCA, the terms in the site-specific BCA shall control. Further, I hereby affirm that information provided on this form and its attachments is true and complete to the best of my knowledge and belief. I am aware that any false statement made herein is punishable as a Class A misdemeanor pursuant to Section 210.45 of the Penal Law.

Date: _____ Signature: _____

Print Name: _____

SUBMITTAL INFORMATION:

- **Two (2)** copies, one paper copy with original signatures and one electronic copy in Portable Document Format (PDF), must be sent to:
 - Chief, Site Control Section
 - New York State Department of Environmental Conservation
 - Division of Environmental Remediation
 - 625 Broadway
 - Albany, NY 12233-7020

FOR DEC USE ONLY

BCP SITE T&A CODE: _____ **LEAD OFFICE:** _____

Supplemental Questions for Sites Seeking Tangible Property Credits in New York City ONLY. Sufficient information to demonstrate that the site meets one or more of the criteria identified in ECL 27 1407(1-a) must be submitted if requestor is seeking this determination.

BCP App Rev 10

Property is in Bronx, Kings, New York, Queens, or Richmond counties.	<input type="checkbox"/> Yes <input type="checkbox"/> No
Requestor seeks a determination that the site is eligible for the tangible property credit component of the brownfield redevelopment tax credit.	<input type="checkbox"/> Yes <input type="checkbox"/> No
Please answer questions below and provide documentation necessary to support answers.	
1. Is at least 50% of the site area located within an environmental zone pursuant to NYS Tax Law 21(b)(6)? Please see DEC's website for more information.	<input type="checkbox"/> Yes <input type="checkbox"/> No
2. Is the property upside down or underutilized as defined below?	Upside Down? <input type="checkbox"/> Yes <input type="checkbox"/> No Underutilized? <input type="checkbox"/> Yes <input type="checkbox"/> No
From ECL 27-1405(31):	
<p>"Upside down" shall mean a property where the projected and incurred cost of the investigation and remediation which is protective for the anticipated use of the property equals or exceeds seventy-five percent of its independent appraised value, as of the date of submission of the application for participation in the brownfield cleanup program, developed under the hypothetical condition that the property is not contaminated.</p>	
From 6 NYCRR 375-3.2(I) as of August 12, 2016: (Please note: Eligibility determination for the underutilized category can only be made at the time of application)	
375-3.2:	
<p>(I) "Underutilized" means, as of the date of application, real property on which no more than fifty percent of the permissible floor area of the building or buildings is certified by the applicant to have been used under the applicable base zoning for at least three years prior to the application, which zoning has been in effect for at least three years; and</p> <p>(1) the proposed use is at least 75 percent for industrial uses; or</p> <p>(2) at which:</p> <p>(i) the proposed use is at least 75 percent for commercial or commercial and industrial uses;</p> <p>(ii) the proposed development could not take place without substantial government assistance, as certified by the municipality in which the site is located; and</p> <p>(iii) one or more of the following conditions exists, as certified by the applicant:</p> <p>(a) property tax payments have been in arrears for at least five years immediately prior to the application;</p> <p>(b) a building is presently condemned, or presently exhibits documented structural deficiencies, as certified by a professional engineer, which present a public health or safety hazard; or</p> <p>(c) there are no structures.</p>	
<p>"Substantial government assistance" shall mean a substantial loan, grant, land purchase subsidy, land purchase cost exemption or waiver, or tax credit, or some combination thereof, from a governmental entity.</p>	

Supplemental Questions for Sites Seeking Tangible Property Credits in New York City (continued)

3. If you are seeking a formal determination as to whether your project is eligible for Tangible Property Tax Credits based in whole or in part on its status as an affordable housing project (defined below), you must attach the regulatory agreement with the appropriate housing agency (typically, these would be with the *New York City Department of Housing, Preservation and Development*; the *New York State Housing Trust Fund Corporation*; the *New York State Department of Housing and Community Renewal*; or the *New York State Housing Finance Agency*, though other entities may be acceptable pending Department review). **Check appropriate box, below:**

- Project is an Affordable Housing Project - Regulatory Agreement Attached;
- Project is Planned as Affordable Housing, But Agreement is Not Yet Available* (*Checking this box will result in a “pending” status. The Regulatory Agreement will need to be provided to the Department and the Brownfield Cleanup Agreement will need to be amended prior to issuance of the CoC in order for a positive determination to be made.);
- This is Not an Affordable Housing Project.

From 6 NYCRR 375- 3.2(a) as of August 12, 2016:

(a) “Affordable housing project” means, for purposes of this part, title fourteen of article twenty seven of the environmental conservation law and section twenty-one of the tax law only, a project that is developed for residential use or mixed residential use that must include affordable residential rental units and/or affordable home ownership units.

(1) Affordable residential rental projects under this subdivision must be subject to a federal, state, or local government housing agency’s affordable housing program, or a local government’s regulatory agreement or legally binding restriction, which defines (i) a percentage of the residential rental units in the affordable housing project to be dedicated to (ii) tenants at a defined maximum percentage of the area median income based on the occupants’ households annual gross income.

(2) Affordable home ownership projects under this subdivision must be subject to a federal, state, or local government housing agency’s affordable housing program, or a local government’s regulatory agreement or legally binding restriction, which sets affordable units aside for home owners at a defined maximum percentage of the area median income.

(3) “Area median income” means, for purposes of this subdivision, the area median income for the primary metropolitan statistical area, or for the county if located outside a metropolitan statistical area, as determined by the United States department of housing and urban development, or its successor, for a family of four, as adjusted for family size.

**NEW YORK STATE
DEPARTMENT OF ENVIRONMENTAL CONSERVATION
BROWNFIELD CLEANUP PROGRAM (BCP)
INSTRUCTIONS FOR COMPLETING A BCP APPLICATION**

The New York State Department of Environmental Conservation (DEC) strongly encourages all applicants to schedule a pre-application meeting with DEC staff to review the benefits, requirements, and procedures for completing a project in the BCP. Contact your [Regional office](#) to schedule a meeting. To add a party to an existing BCP Agreement and/or Application, use the [BCP Agreement Amendment Application](#). **See guidance at the end of these instructions regarding the determination of a complete application.**

SECTION I REQUESTOR INFORMATION

Requestor Name

Provide the name of the person(s)/entity requesting participation in the BCP. (If more than one, attach additional sheets with requested information. If an LLC, the members/owners names need to be provided on a separate attachment). The requestor is the person or entity seeking DEC review and approval of the remedial program.

If the requestor is a Corporation, LLC, LLP or other entity requiring authorization from the NYS Department of State to conduct business in NYS, the requestor's name must appear exactly as given in the [NYS Department of State's Corporation & Business Entity Database](#). A print-out of entity information from the database must be submitted to DEC with the application, to document that the requestor is authorized to do business in NYS.

Address, etc.

Provide the requestor's mailing address, telephone number; fax number and e-mail address.

Document Certification

All documents, which are prepared in final form for submission to DEC for approval, are to be prepared and certified in accordance with Section 1.5 of [DER-10](#). Persons preparing and certifying the various work plans and reports identified in Section 1.5 include:

- New York State licensed professional engineers (PEs), as defined at 6 NYCRR 375-1.2(aj) and paragraph 1.3(b)47. Engineering documents must be certified by a PE with current license and registration for work that was done by them or those under their direct supervision. The firm by which the PE is employed must also be authorized to practice engineering in New York State;
- qualified environmental professionals as defined at 6 NYCRR 375-1.2(ak) and DER-10 paragraph 1.3(b)49;
- remedial parties, as defined at 6 NYCRR 375-1.2(ao) and DER-10 paragraph 1.3(b)60; or
- site owners, which are the owners of the property comprising the site at the time of the certification.

SECTION II PROJECT DESCRIPTION

As a separate attachment, provide complete and detailed information about the project, including the purpose of the project, the date the remedial program is to start, and the date the Certificate of Completion is anticipated..

**NEW YORK STATE
DEPARTMENT OF ENVIRONMENTAL CONSERVATION**

SECTION III

PROPERTY'S ENVIRONMENTAL HISTORY

Please follow instructions on application form.

SECTION IV

PROPERTY INFORMATION

Proposed Site Name

Provide a name for the proposed site. The name could be an owner's name, current or historical operations (i.e. ABC Furniture) or the general location of the property. Consider whether the property is known by DEC by a particular name, and if so, use that name.

Site Address

Provide a street address, city/town, zip code, and each municipality and county in which the site is located. .

Site Size

Provide the approximate acreage of the site.

GIS Information

Provide the latitude and longitude for the approximate center of the property. Show the latitude and longitude in degrees, minutes and seconds.

Tax Parcel Information

Provide the tax parcel address/section/block/lot information and map. Tax map information may be obtained from the tax assessor's office for all tax parcels that are included in the property boundaries. Attach a county tax map with identifier numbers, along with any figures needed to show the location and boundaries of the property. Include a USGS 7.5 minute quad map on which the property appears and clearly indicate the proposed site's location.

1. Tax Map Boundaries

State whether the boundaries of the site correspond to the tax map boundaries. If no, a metes and bounds description of the property must be attached. The site boundary can occupy less than a tax lot or encompass portions of one or more tax lots and may be larger or smaller than the overall redevelopment/reuse project area. A site survey with metes and bounds will be required to establish the site boundaries before the Certificate of Completion can be issued.

2. Map

Provide a property base map(s) of sufficient detail, clarity and accuracy to show the following: i) map scale, north arrow orientation, date, and location of the property with respect to adjacent streets and roadways; and ii) proposed brownfield property boundary lines, with adjacent property owners clearly identified.

**NEW YORK STATE
DEPARTMENT OF ENVIRONMENTAL CONSERVATION**

SECTION IV (continued)

3. En-zone

Is any part of the property in an En-zone? If so, what percentage? For information on En-zones, please see [DEC's website](#).

4. Multiple applications

Generally, only one application can be submitted, and one BCA executed, for a development project. In limited circumstances, the DEC may consider multiple applications/BCAs for a development project where 1) the development project spans more than 25 acres; 2) the approach does not negatively impact the remedial program, including timing, ability to appropriately address areas of concern, and management of off-site concerns; and 3) the approach is not advanced to increase the value of future tax credits (i.e., circumvent the tax credit caps provided under New York State Tax Law Section 21).

10. Property Description Narrative

Provide a property description in the format provided below. Each section should be no more than one paragraph long.

Location

Example: "The XYZ Site is located in an {urban, suburban, rural} area." {Add reference points if address is unspecific; e.g., "The site is approximately 3.5 miles east of the intersection of County Route 55 and Industrial Road."}

Site Features:

Example: "The main site features include several large abandoned buildings surrounded by former parking areas and roadways. About one quarter of the site area is wooded. Little Creek passes through the northwest corner."

Current Zoning and Land Use: (Ensure the current zoning is identified.)

Example: "The site is currently inactive, and is zoned for commercial use. The surrounding parcels are currently used for a combination of commercial, light industrial, and utility right-of-ways. The nearest residential area is 0.3 miles east on Route 55."

Past Use of the Site: include source(s) of contamination and remedial measures (site characterizations, investigations, Interim Remedial Measures, etc.) completed outside of the current remedial program (e.g., work under a petroleum spill incident).

Example: "Until 1992 the site was used for manufacturing wire and wire products (e.g., conduit, insulators) and warehousing. Prior uses that appear to have led to site contamination include metal plating, machining, disposal in a one-acre landfill north of Building 7, and releases of wastewater into a series of dry wells."

When describing the investigations/actions performed outside of the remedial program, include the major chronological remedial events that lead to the site entering a remedial program. The history should include the first involvement by government to address hazardous waste/petroleum disposal. Do not cite reports. Only include remedial activities which were implemented PRIOR to the BCA. Do not describe sampling information.

**NEW YORK STATE
DEPARTMENT OF ENVIRONMENTAL CONSERVATION**

SECTION IV (continued)

Property Description Narrative (continued)

Site Geology and Hydrogeology:

As appropriate, provide a very brief summary of the main hydrogeological features of the site including depth to water, groundwater flow direction, etc.

Environmental Assessment

The goal of this section is to describe the nature and extent of contamination at the site. When describing the nature of contamination, identify just the primary contaminants of concern (i.e., those that will likely drive remedial decisions/actions). If there are many contaminants present within a group of contaminants (i.e., volatile organic compounds, semivolatile organic compounds, metals), identify the group(s) and one or two representative contaminants within the group. When addressing the extent of contamination, identify the areas of concern at the site, contaminated media (i.e., soil, groundwater, etc.), relative concentration levels, and a broad-brush description of contaminated areas/depths.

The reader should be able to know if contamination is widespread or limited and if concentrations are marginally or greatly above Standards, Criteria and Guidance (SGCs) for the primary contaminants. If the extent is described qualitatively (e.g., low, medium, high), representative concentrations should be given and compared with appropriate SCGs. For soil contamination, the concentrations should be compared with the soil cleanup objectives (SCOs) for the intended use of the site.

A typical Environmental Assessment would look like the following:

Based upon investigations conducted to date, the primary contaminants of concern for the site include cadmium and trichloroethene (TCE).

Soil - Cadmium is found in shallow soil, mostly near a dry well at the northeast end of the property. TCE is found in deeper soil, predominantly at the north end of the site. Concentrations of cadmium found on site (approximately 5 ppm) slightly exceed the soil cleanup objective (SCO) for unrestricted use (2.5 ppm). Concentrations of TCE found on site (5 ppm to 300 ppm) significantly exceed the soil cleanup objectives for the protection of groundwater (0.47 ppm).

Groundwater - TCE and its associated degradation products are also found in groundwater at the north end of the site, moderately exceeding groundwater standards (typically 5 ppb), with a maximum concentration of 1500 ppb. A moderate amount of TCE from the site has migrated 300 feet down-gradient off-site. The primary contaminant of concern for the off-site area is TCE, which is present at a maximum concentration of 500 ppb, at 10 feet below the groundwater table near Avenue A.

Soil Vapor & Indoor Air - TCE was detected in soil vapor at elevated concentrations and was also detected in indoor air at concentrations up to 1,000 micrograms per cubic meter.

If any changes to Section IV are required prior to application approval, a new page, initialed by each requestor, must be submitted.

SECTION V

ADDITIONAL REQUESTOR INFORMATION

Representative Name, Address, etc.

Provide information for the requestor's authorized representative. This is the person to whom all correspondence, notices, etc. will be sent, and who will be listed as the contact person in the BCA. Invoices will be sent to the representative of Applications determined to be Participants unless another contact name and address is provided with the application.

Consultant and Attorney Name, Address, etc.

Provide requested information.

**NEW YORK STATE
DEPARTMENT OF ENVIRONMENTAL CONSERVATION**

**SECTION VI CURRENT PROPERTY OWNER/OPERATOR INFORMATION
(IF NOT A REQUESTOR)**

Owner Name, Address, etc.

Provide requested information of the current owner of the property. List all parties holding an interest in the Property and, if the Requestor is not the current owner, describe the Requestor's relationship to the current owner.

Operator Name, Address, etc.

Provide requested information of the current operator (if different from the requestor or owner).

Provide a list of previous property owners and operators with names, last known addresses, telephone numbers and the Requestor's relationship to each owner and operator as a separate attachment

SECTION VII REQUESTOR ELIGIBILITY INFORMATION

As a separate attachment, provide complete and detailed information in response to any eligibility questions answered in the affirmative. It is permissible to reference specific sections of existing property reports; however, it is requested that such information be summarized. For properties with multiple addresses or tax parcels, please include this information for each address or tax parcel.

SECTION VIII PROPERTY ELIGIBILITY INFORMATION

As a separate attachment, provide complete and detailed information in response to the following eligibility questions answered in the affirmative. It is permissible to reference specific sections of existing property reports; however, it is requested that that information be summarized.

1. CERCLA / NPL Listing

Has any portion of the property ever been listed on the National Priorities List (NPL) established under CERCLA? If so, provide relevant information.

2. Registry Listing

Has any portion of the property ever been listed on the New York State Registry of Inactive Hazardous Waste Disposal Sites established under ECL 27-1305? If so, please provide the site number and classification. See the Division of Environmental Remediation (DER) [website](#) for a database of sites with classifications.

3. RCRA Listing

Does the property have a Resource Conservation and Recovery Act (RCRA) TSDF Permit in accordance with the ECL 27-0900 *et seq*? If so, please provide the EPA Identification Number, the date the permit was issued, and its expiration date. Note: for purposes of this application, interim status facilities are not deemed to be subject to a RCRA permit.

4. Registry / RCRA sites owned by volunteers

If the answer to question 2 or 3 above is yes, is the site owned by a volunteer as defined under ECL 27-1405(1)(b), or under contract to be transferred to a volunteer? Attach any information available to the requestor related to previous owners or operators of the facility or property and their financial viability, including any bankruptcy filing and corporate dissolution documentation.

**NEW YORK STATE
DEPARTMENT OF ENVIRONMENTAL CONSERVATION**

SECTION VIII (continued)

5. Existing Order

Is the property subject to an order for cleanup under Article 12 of the Navigation Law or Article 17 Title 10 of the ECL? If so, please provide information on an attachment. Note: if the property is subject to a stipulation agreement, relevant information should be provided; however, property will not be deemed ineligible solely on the basis of the stipulation agreement.

6. Enforcement Action Pending

Is the property subject to an enforcement action under Article 27, Titles 7 or 9 of the ECL or subject to any other ongoing state or federal enforcement action related to the contamination which is at or emanating from the property? If so, please provide information on an attachment.

SECTION IX CONTACT LIST INFORMATION

Provide the names and addresses of the parties on the Site Contact List (SCL) and a letter from the repository acknowledging agreement to act as the document repository for the proposed BCP project.

SECTION X LAND USE FACTORS

In addition to eligibility information, site history, and environmental data/reports, the application requires information regarding the current, intended and reasonably anticipated future land use.

1. This information consists of responses to the "land use" factors to be considered relative to the "Land Use" section of the BCP application. The information will be used to determine the appropriate land use in conjunction with the investigation data provided, in order to establish eligibility for the site based on the definition of a "brownfield site" pursuant to ECL 27-1405(2).
2. This land use information will be used by DEC, in addition to all other relevant information provided, to determine whether the proposed use is consistent with the currently identified, intended and reasonably anticipated future land use of the site at this stage. Further, this land use finding is subject to information regarding contamination at the site or other information which could result in the need for a change in this determination being borne out during the remedial investigation.

SECTION XI SIGNATURE PAGE

The Requestor must sign the application, or designate a representative who can sign. The requestor's consultant or attorney cannot sign the application. If there are multiple parties applying, then each must sign a signature page. If the requestor is a Corporation, LLC, LLP or other entity requiring authorization from the NYS Department of State to conduct business in NYS, the entity's name must appear exactly as given in the NYS Department of State's Corporation & Business Entity Database.

**NEW YORK STATE
DEPARTMENT OF ENVIRONMENTAL CONSERVATION**

DETERMINATION OF A COMPLETE APPLICATION

1. The first step in the application review and approval process is an evaluation to determine if the application is complete. To help ensure that the application is determined complete, requestors should review the list of [common application deficiencies](#) and carefully read these instructions.
2. DEC will send a notification to the requestor within 30 calendar days of receiving the application, indicating whether such application is complete or incomplete.
3. An application must include the following information relative to the site identified by the application, necessary for making an eligibility determination, or it will be deemed incomplete. (**Please note:** the application *as a whole* requires more than the information outlined below to be determined complete). The application must include:
 - a. for all sites, an investigation report sufficient to demonstrate the site requires remediation in order to meet the requirements of the program, and that the site is a brownfield site at which contaminants are present at levels exceeding the soil cleanup objectives or other health-based or environmental standards, criteria or guidance adopted by DEC that are applicable based on the reasonably anticipated use of the property, in accordance with applicable regulations. Required data includes site drawings requested in Section III, #3 of the BCP application form.
 - b. for those sites described below, documentation relative to the volunteer status of all requestors, as well as information on previous owners or operators that may be considered responsible parties **and** their ability to fund remediation of the site. This documentation is required for:
 - i. real property listed in the registry of inactive hazardous waste disposal sites as a class 2 site, which may be eligible provided that DEC has not identified any responsible party for that property having the ability to pay for the investigation or cleanup of the property prior to the site being accepted into the BCP; or
 - ii. real property that was a hazardous waste treatment, storage or disposal facility having interim status pursuant to the Resource Conservation and Recovery Act (RCRA) program, which may be eligible provided that DEC has not identified any responsible party for that property having the ability to pay for the investigation or cleanup of the property prior to the site being accepted into the BCP.
 - c. for sites located within the five counties comprising New York City, in addition to (a) and if applicable (b) above, if the application is seeking a determination that the site is eligible for tangible property tax credits, sufficient information to demonstrate that the site meets one or more of the criteria identified in ECL 27 1407(1-a). **If this determination is not being requested in the application to participate in the BCP, the applicant may seek this determination at any time before issuance of a certificate of completion, using the BCP Amendment Application, except for sites seeking eligibility under the underutilized category.**
 - d. for sites previously remediated pursuant to Titles 9, 13, or 14 of ECL Article 27, Title 5 of ECL Article 56, or Article 12 of Navigation Law, relevant documentation of this remediation.

**NEW YORK STATE
DEPARTMENT OF ENVIRONMENTAL CONSERVATION**

DETERMINATION OF A COMPLETE APPLICATION (continued)

4. If the application is found to be incomplete:
 - a. the requestor will be notified via email or phone call regarding minor deficiencies. The requestor must submit information correcting the deficiency to DEC within the 30-day review time frame; or
 - b. the requestor will receive a formal Letter of Incomplete Application (LOI) if an application is substantially deficient, if the information needed to make an eligibility determination identified in #4 above is missing or found to be incomplete, or if a response to a minor deficiency is not received within the 30-day period. The LOI will detail all of the missing information and request submission of the information. If the information is not submitted within 30 days from the date of the LOI, the application will be deemed withdrawn. In this case, the requestor may resubmit the application without prejudice.

5. If the application is determined to be complete, DEC will send a Letter of Complete Application (LOC) that includes the dates of the public comment period. The LOC will:
 - a. include an approved public notice to be sent to all parties on the Contact List included with the application;
 - b. provide instructions for publishing the public notice in the newspaper on the date specified in the letter, and instructions for mailing the notice to the Contact List;
 - c. identify the need for a certification of mailing form to be returned to DEC along with proof of publication documentation; and
 - d. specify the deadline for publication of the newspaper notice, which must coincide with, or occur before, the date of publication in the Environmental Notice Bulletin (ENB).
 - i. DEC will send a notice of the application to the ENB. As the ENB is only published on Wednesdays, DEC must submit the notice by the Wednesday before it is to appear in the ENB.
 - ii. The mailing to parties on the Contact List must be completed no later than the Tuesday prior to ENB publication. If the mailings, newspaper notice and ENB notice are not completed within the time-frames established by the LOC, the public comment period on the application will be extended to insure that there will be the required comment period.
 - iii. Marketing literature or brochures are prohibited from being included in mailings to the Contact List.

ACRONYM LIST

Acronym	Description
BCP Site	Area that includes 100 Dona Street
BOA	Brownfield Opportunity Area
City	City of Buffalo
EJ	Environmental Justice
En-zone	Environmental Zone
ESA	Environmental Site Assessment
FEMA	Federal Emergency Management Agency
LWRP	Local Waterfront Revitalization Program
NYSDEC	New York State Department of Environmental Conservation
PCB	Polychlorinated Biphenyls
SCO	Soil Cleanup Objective
SVI	Soil Vapor Intrusion
SVOC	Semi-Volatile Organic Compound
TOGS	Technical and Operational Guidance Series
USEPA	United States Environmental Protection Agency
USGS	United States Geologic Society
UST	Underground Storage Tank
VOC	Volatile Organic Compound

This document and its attachments supplement the Brownfield Cleanup Program (BCP) Application. The information is organized by the BCP Application sections. If no additional information is required, it is noted under its relevant section.

Section I – Requestor Information

The requestor is the City of Lackawanna as noted.

City of Lackawanna
714 Ridge Road
Lackawanna, NY 14218
Authorized Representative: Richard Stanton
Email: development@lackny.com

The requestor is not a corporation, LLC, LLP or other entity requiring authorization from the NYS Department of State.

Section II – Project Description

The Site (100 Dona Street) has been previously referred to in NYS Brownfield Opportunity Area (BOA) Program documents as ‘Former Friendship House – Dona Street’. The Site is currently owned by the City of Lackawanna.

The property was initially developed in March of 1917 as an elementary school. The property was owned by New Lincoln Elementary School up until 1985. Throughout the history of the property the address has switched between 90 and 100 Donna Street. After the site was utilized as an elementary school, minor expansions were done to the building on the property. The site then fell under management of the Friendship House of Western New York in September of 1989. The three-story building and property became owned by the City of Lackawanna in February of 2008 and the building on the proposed BCP property was demolished in September of 2018 in order to eliminate the physical hazards associated with the dilapidated structure.

The Site is located in a residential and commercial neighborhood. The property is surrounded by multiple single family housing to the north, residential and community services to the south including a church, commercial and residential vacant land to the east and commercial property to the west.

The City of Lackawanna is preparing this BCP Application in order to prepare the site for redevelopment. The intended redevelopment will be dependent on the vision of the future developer of the Site. Lackawanna’s BOA indicates this property should be reused to help compliment surrounding residential properties. The utilization of the Site will hopefully inspire the development of other properties located within the Lackawanna BOA to benefit the City of Lackawanna and its residents.

The Site has been the subject of a recent environmental investigation which demonstrated that the Site has been affected by past uses and may be a candidate for inclusion in the BCP. The results of the recent investigation are discussed in Section III.

Estimated Project Schedule:

March 2020	Submission of Brownfield Cleanup Program (“BCP”) Application (Final)
June 2020	Acceptance into the BCP and Brownfield Cleanup Agreement (BCA) Execution
June 2020	Release of City’s Development Request for Proposals
August 2020	Selection of Developer
August 2020	Submission of Remedial Investigation Work Plan (“RIWP”)
September 2020	Approval of RIWP
October 2020	Initiation of Remedial Investigation
December 2020	Remedial Investigation Ends
January 2021	Submission of Remedial Investigation/Alternatives Analysis Report (RI/AAR) and Remedial Action Work Plan (RAWP)
March 2021	Approval of RI/AAR and RAWP
April 2021	Initiation of Remediation Activities
August 2021	Completion of Remediation Activities
September 2021	Submission of Final Engineering Report (“FER”)
November 2021	Approval of FER
December 2021	Issuance of Certificate of Completion

Section III - Property's Environmental History

1. Environmental Reports

Environmental information currently exists for the Site from a Phase I Environmental Site Assessment (ESA) completed by C&S Engineers (C&S) in August 2016 and Phase II ESA completed by C&S in March 2017. The associated documents are provided in **Attachment A**.

The Phase I indicated areas containing Recognized Environmental Conditions (RECs) which were subsequently investigated in a Phase II ESA.

C&S Phase I ESA Report

The Phase I ESA for the Site identified the following RECs:

- The former school building was heated by oil and that vehicles were stored/maintained on premises. In addition, an unregulated storage tank was formerly located at the southeast corner of the Subject Property, according to historical records. This underground storage tank is considered a REC.
- An adjacent property to the east is located up gradient of the Subject Property and was listed in EDR Historical Auto Stations. This database indicates that the site was the location of an auto station. This property is considered a REC in this environmental assessment due to potential migration of petroleum onto the Subject Property.

Please note that the former school building was demolished between the time of the Phase I ESA and the submission of this BCP application.

C&S Phase II ESA Report

A Phase II ESA was completed to provide additional information on the RECs identified as a result of the 2016 Phase I ESA (summarized above). The Phase II ESA included 12 surface soil samples that were collected from 0 to 2 inches below grade. A total of 12 soil borings were advanced across the Site, including eight shallow borings to depths of approximately 12 feet below grade and four deep borings reaching depths of 40 feet. Nine test pits of depths of eight to ten feet were excavated across the Site. Five groundwater monitoring wells were installed and sampled.

Sample analysis included 12 surface soil samples; eight subsurface soil samples from the soil borings; 8 subsurface soil samples from of the test pits; and five groundwater samples. The soil and groundwater samples were analyzed for US Environmental Protection Agency (EPA) Target Compound List (TCL) volatile organic compounds (VOCs), TCL semi-volatile organic compounds (SVOCs), Target Analyte List (TAL) metals and polychlorinated biphenyls (PCB). The findings from the Phase II ESA are provided below:

- Fill material was encountered on the eastern portion of the Site from just below the asphalt and gravel sub-base or topsoil to one to three feet below grade. Sandy and silty sand material was observed directly beneath the fill.

- No VOCs were detected in any of the surface soil sampling. However, SVOCs exceeding Industrial Use standards and metals exceeding Unrestricted Use Soil Cleanup Objectives (SCOs) were detected in surface soil samples. PCBs were detected in one surface soil sample, but did not exceed RSCOs.
- Visual and olfactory indications of petroleum impairment were evident in the northern portion of the Site. Petroleum staining appeared in BH-6, BH-7 and TP-9 at approximately 6 to 16 feet below grade. However, all concentrations of petroleum-related VOCs and SVOCs were below the respective RSCOs in the samples collected from these locations.
- Six subsurface soil samples contained contaminants exceeding RSCOs. BH-7 contained acetone exceeding Unrestricted Use SCOs. BH-11 contained SVOCs that exceeded Restricted Residential Use SCOs and BH-12 exceeded Industrial Use SCOs for arsenic.
- No PCBs were detected in any subsurface soil samples.
- Groundwater was present at depths of approximately 5.5 to 10 feet bgs. GW-4 contained concentrations of acetone above the standards. GW-3, GW-4, and GW-5 contained various concentrations of metals that exceeded standards. No PCBs were detected in any of the groundwater samples.

A summary of the surface soil data is provided in **Table 3-2**, attached to this application. **Figure 3-1** shows the sample locations from both investigations.

2. Sampling Data

Surface Soil

- No VOC concentrations exceeded Restricted Residential Use SCOs (RRSCOs)
- SVOC concentrations were identified in most of the samples collected from the fill material. SVOC concentrations marginally to significantly exceeded RRSCOs:
 - Benzo(a)anthracene concentrations exceeded the RRSCOs (1 ppm) at seven locations. Concentrations ranged from 1.41 ppm to 5.13 ppm.
 - Benzo(a)pyrene concentrations exceeded the RRSCOs (1 ppm) at seven locations. Concentrations ranged from 1.3 ppm to 4.54 ppm.
 - Benzo(b)fluoranthene exceeded the RRSCO (1 ppm). Concentrations ranged 1.48 ppm to 5.01 ppm.
 - Chrysene concentrations exceeded the RRSCO (3.9 ppm) at two locations. Concentrations ranged from 5.08 ppm to 5.09 ppm.
 - Dibenzo(a,h)anthracene exceeded the RRSCO (0.33 ppm). Concentrations ranged from 0.377 ppm to 0.427 ppm. One location exceeds Commercial Use (0.56 ppm) SCO at 0.654 ppm, and two locations exceed Industrial Use SCO (1.1 ppm at 1.19 ppm and 1.37 ppm.

- Indeno(1,2,3-cd)pyrene exceeded the RRSCO (0.5 ppm). Concentrations ranged 0.652 ppm to 2.13 ppm.
- No PCB concentrations exceeded the RRSCOs
- No metals concentrations exceeded the RRSCOs.

Subsurface Soil Samples

- No VOCs exceeded RRSCOs in the subsurface soil samples.
- Only one subsurface soil sample contained SVOCs in excess of the RRSCOs. BH-11 contained SVOC concentrations above Restricted Residential Use SCOs for benzo(a)anthracene at 1.54 ppm. Restricted Residential Use SCOs for benzo(a)anthracene are 1 ppm .
- Results indicate that detected SVOCs present in these deposits are classified as polycyclic aromatic hydrocarbons (PAHs). The PAH compounds are usually associated with the incomplete combustion of organic material (i.e., wood, coal or petroleum products). The presence of these compounds are consistent with the urban setting of the Site.
- No PCBs were detected.
- BH-12 contained a concentration above Industrial Use SCOs for arsenic at 19.2 ppm. The RRSCO for Arsenic is 16 ppm.

The Site figure detailing the impacted soil is included as **Figure 3-2**. Lab data is provided in **Attachment A**.

Groundwater

As part of the 2017 characterization, five groundwater monitoring wells were installed in soil borings. One round of groundwater samples from all five monitoring wells was collected and analyzed; the following contaminants were detected:

- Acetone was detected and exceeded VOC standards for NY TOGS Groundwater Quality Standards (GWQS) at 59.3 ug/l in GW-4. The GWQS standards for acetone are 50.0 ug/l.
- Low concentrations of SVOCs were detected in GW-5; however, these concentrations did not exceed GWQS.
- No PCBs were detected.
- GW-3, GW-4, and GW-5 contained contaminants that exceeded standards for various metals.
 - Aluminum concentrations exceeded the GWQS (100 ug/l) at three locations. Concentrations ranged from 34,700 ug/l to 206,000 ug/l.
 - Arsenic concentration exceed the GWQS (25 ug/l) at one location, GW-4. Arsenic was detected at 132 ug/l.

- Barium concentration exceed the GWQS (1,000 ug/l) at one location, GW-4. Barium was detected at 1,440 ug/l.
- Beryllium concentration exceed the GWQS (3 ug/l) at one location, GW-4. Beryllium was detected at 9.22 ug/l.
- Cadmium concentration exceed the GWQS (5 ug/l) at one location, GW-4. Cadmium was detected at 20.6 ug/l.
- Chromium concentrations exceed the GWQS (50 ug/l) at two well locations, GW-3 and GW-4. Concentrations ranged from 55.1 ug/l to 410 ug/l.
- Cobalt concentrations exceeded the GWQS (5 ug/l) at one location, GW-4. Cobalt was detected at 165 ug/l.
- Copper concentration exceed the GWQS (200 ug/l) at one location, GW-4. Copper was detected at 601 ug/l.
- Iron concentrations exceed the GWQS (300 ug/l) at three well locations, GW-3, GW-4 and GW-5. Concentrations ranged from 16,300 ug/l to 364,000 ug/l.
- Lead concentrations exceed the GWQS (25 ug/l) at two well locations, GW-3 and GW-4. Concentrations ranged from 29.5 ug/l to 228 ug/l.
- Magnesium concentrations exceed the GWQS (35,000 ug/l) at two well locations, GW-3 and GW-4. Concentrations ranged from 62,300 ug/l to 978,000 ug/l.
- Manganese concentrations exceed the GWQS (300 ug/l) at three well locations, GW-3, GW-4 and GW-5. Concentrations ranged from 997 ug/l to 27,600 ug/l.
- Mercury concentration exceed the GWQS (0.7 ug/l) at one location, GW-4. Mercury was detected at 2.31 ug/l.
- Nickel concentrations exceed the GWQS (100 ug/l) at two well locations, GW-4 and GW-5. Concentrations ranged from 21.5 ug/l to 486 ug/l.
- Selenium concentration exceed the GWQS (10 ug/l) at one location, GW-4. Selenium was detected at 82.9 ug/l.
- Sodium concentrations exceed the GWQS (20,000 ug/l) at two well locations, GW-3 and GW-5. Concentrations ranged from 24,600 ug/l to 40,400 ug/l.
- Thallium concentration exceed the GWQS (0.5 ug/l) at one location, GW-4. Thallium was detected at 173 ug/l.
- Vanadium concentrations exceeded the GWQS (0.0 ug/l) at three locations, GW-3, GW-4, and GW-5. GW-3 vanadium was detected at 55.3 ug/l, GW-4 vanadium was detected at 413 ug/l, and GW-5 vanadium was detected at 16.9 ug/l.

Site figure presenting groundwater concentrations above NYSDEC standards is included as **Figure 3-3**. Lab data is provided in **Attachment A**.

3. Site Figure

Numerous figures have been generated depicting pertinent details concerning the site and adjacent properties. These figures are referenced throughout this document.

4. Past Land Uses:

According to historical records, the Sites initial development included a single structure used as a school building and a parking lot. The structure eventually went underwent minor expansion and was used as the location for the Friendship House of WNY, Inc.

An environmental database records search indicated that the former school building was heated by oil and that vehicles were stored/maintained on premises. In addition, an unregulated storage tank was formerly located the southeast corner of the Subject Property, according to historical records. This underground storage tank is considered a Recognized Environmental Condition (REC) in this assessment.

The property is currently vacant.

Adjacent Usage:

Surrounding historical property uses consisted of commercial use and residential development. Residential development included single-family housing and commercial development included a collision shop and boat works shop.

Section IV - Property Information

Proposed BCP Site Name: **100 Dona Street.**

The Site is comprised of one parcel: 100 Dona Street (SBL: 141.67-3-1, 2.2 acres) as noted in the form.

The proposed BCP boundary is consistent with the property boundary. **Figure 4-1** depicts the Brownfield Cleanup Program Site on a USGS 7.5 minute quadrangle map.

1. Tax Map Boundaries

The boundaries of the BCP Site correspond to the Erie County tax map boundaries.

2. Property Base Map

A map showing the proposed BCP Site on an aerial photograph showing parcel lines, tax map parcel numbers and owner information for adjacent parcels is included as **Figure 4-2**. **Figure 4-3** depicts land use for the local area.

3. En-Zone

Designation of En-Zones is limited to eligible 2013 Census Tracts with a poverty rate of at least 20% according to the 2013 American Community Survey 5-year estimates and an unemployment rate of at least 125% of the New York State average, or a poverty rate of at least double the rate for the county in which the tract is located.

The BCP site is within US Census Tracts 174. According to the NYSDEC En-zone Boundaries Data Set, Erie County Census Tract 174 is in a designated Environmental Zone ("En-Zone"), based on 2013 data, in which tax credits are enhanced.

4. Multiple Applications

The proposed project is a stand-alone project and is not the subject of multiple applications.

5. Offsite Groundwater or Soil Vapor Contamination

At this time, previous environmental investigations do not indicate that contaminated offsite groundwater or soil vapor has impacted the proposed BCP Site.

6. Previous Remediation

In 1988 an unregulated 8,000 gallon underground storage tank with the ID #9-119814 was removed from the property. Due to the lack of poor closure information on the removal of the underground storage tank, the exact location of this tank is unknown.

7. Lands under Water

The proposed BCP Site does not contain lands underwater.

8. Easements / Rights-of-Way

- No easements or Rights-of-Way are known at this time.

9. Permits

There are no NYSDEC or USEPA permits related to the proposed BCP Site.

10. Property Description Narrative

10.1 Location

The proposed BCP Site is located on Dona Street in the City of Lackawanna, New York. The Site is approximately 2.2-acres and is owned by the City of Lackawanna. The property is surrounded by School Street to the north, Dona Street to the east, Dona Street to the south, and Wilmuth Avenue to the west, bound the BCP Site.

Land uses immediately adjacent to the BCP Site include other commercial and residential buildings.

10.2 Site Features

The BCP Site consists of vacant land.

10.3 Current Zoning and Land Use

The Site is currently zoned as mixed residential. This category allows for a variety of housing styles and flexibility in building placement. This zoning category allows for buildings up to 3 stories.

10.4 Past Use of the Site

The proposed BCP Site once contained a three-story vacant commercial building and parking lot. The building was initially used as a school. The building eventually had minor expansions and was then utilized as the location for the Friendship House of WNY, Inc. The building also was also heated by oil along with the storage and maintenance of vehicles on the property. Any contamination on site can be attributed to these past used of the proposed BCP Site as well an adjoining property that was located up gradient of the Site and used as an historical automobile station. The building was recently demolished due to its unsafe condition.

Remedial events prior to BCP sampling

It was determined that 90 Dona Street was a historic address for the proposed BCP Site. There was an unregulated, 8,000-gallon underground storage tank on the school property with the ID #9-119814 that was reportedly closed in 1988 and removed. Due to a lack of closure information and reported poor storage conditions (without secondary containment, leak detection, or internal and external tank and pipe protection), this former tank remains a concern. However, location of this former tank is unknown.

10.5 Site Geology and Hydrogeology

The proposed BCP Site is located within the NYS landscape Erie-Ontario Lowlands region. It is located in the Central Lowlands region Eastern Lakes section physiographic province. The Eastern Lakes section occupies an area along the shore lines of the Great Lakes from Lake Michigan east to Lake Ontario and up the St. Lawrence River to Vermont.

The regional geology consists of lacustrine silt and clay. According to the Geological Map of New York – Niagara Sheet, the bedrock is Skaneateles Formation of Levanna Shale and Stafford Limestone Members.

The local soil types identified by the Natural Resources Conservation Service (NRCS) are Urban Land (Ud), Urban land-Galen complex (Up), and Urban land-Niagara Complex (Us). Surrounding soil types within 0.25 miles of the Subject Property include: Niagara silt loam, till substratum (northeast), Urban land (east and west), Urban land-Galen complex (east), Urban land-Niagara Complex (south), Water (south), and Wayland soils complex, 0 to 3 percent slopes, frequently flooded (south).

The Phase II ESA observed fill material on the eastern portion of the Site from beneath the asphalt or topsoil approximately one to three feet below grade. Directly beneath the fill material was sand or silty sand. Refusal across the site ranged from 14 to 16.5 feet. During the subsurface investigation, visual and olfactory evidence of petroleum was identified in the proximity of BH-6, BH-7 and TP-9. The soil from approximately 6 to 16 feet in depth exhibited a grayish appearance of staining. Native soil consists of brown fine grain sand and silty sand.

It is estimated that groundwater flow is in the southwesterly direction. Groundwater flow specific to the proposed BCP Site is unknown and may be different from the regional flow direction. Potential influences include local drainage features, seasonal groundwater level fluctuations, subsurface geology, surface topography, and/or other local site features.

No U.S. Fish and Wildlife Service National Wetland Inventory (“NWI”) wetlands are shown on the Subject Property.

NWI wetlands mapped within 1 mile of the Subject Property include:

- One Riverine Lower Perennial Unconsolidated Bottom wetland (0.17 miles south)
- Two Palustrine Unconsolidated Bottom wetlands (0.38 miles northeast, 0.47 miles north-northeast)
- One Palustrine Scrub-Shrub Emergent wetland (0.54 miles southeast)
- One Lacustrine Limnetic Unconsolidated Bottom wetland (0.74 miles northwest)
- Two Palustrine Emergent wetlands (0.75 miles southeast, 0.81 miles southeast)

10.6 Environmental Assessment

Surface Soil

Based upon surface soil samples conducted up to date, the primary contaminants of concern include SVOCs and metals that exceeded NYS SCOs. No VOCs were detected in any samples and

PCBS were detected in one surface soil sample but did not exceed SCO guidance values. The SVOC levels are indicative to the historical use of the surrounding areas.

Subsurface Soil

Based upon investigations conducted to date, the primary contaminants of concern include VOCs, SVOCs and heavy metals in the fill material present throughout the BCP Site, mainly on the eastern portion of the Site from just below the asphalt and gravel sub-base or topsoil.

Subsurface soil contamination was generally limited to the top one to three feet of fill material, which was observed on the eastern portion of the Site. The fill material consists of a mix of variable amount of sand, with gravel, concrete and brick fragments. Due to the heterogeneous nature of the fill material, no defined point sources of contamination were identified.

Visual and olfactory evidence of petroleum was identified in the proximity of BH-6, BH-7 and TP-9 at depths of six to 16 feet. However, no petroleum-related VOCs or SVOCs were detected in the soil samples from these locations. Based on this information, it appears that the release of petroleum occurred in the distant past and that the petroleum has since weathered. The apparent source of this impact is not known, although records suggest that the school was once heated by fuel oil. The fuel oil was once stored in an 8,000-gallon UST which was removed in 1988. The location of the UST is not known, and documentation of the closure was not found. Therefore, it is possible that the petroleum nuisance characteristics encountered during this Phase II ESA are related to the former presence of that 8,000-gallon UST.

Groundwater

Based on the investigations conducted to date, concentrations of VOCs in one of the five groundwater samples contained acetone (59.3 ug/l) slightly above NYSDEC standards –acetone 50.0 ug/l. Concentrations of SVOCs in one of the five groundwater samples contained multiple PAHs but none of the levels were above NYSDEC standards. Concentrations of PCBs were not detected in any of the groundwater samples. Concentrations of metals in three of the five groundwater samples contained multiple heavy metals that exceeded standards, including aluminum. Chromium, iron, manganese, vanadium, arsenic, beryllium, barium, cobalt, copper, lead, selenium, magnesium, and nickel.

Section V - Additional Requestor Information

No additional information is required.

Requestor's Authorized Representative: Richard Stanton
714 Ridge Road
Lackawanna, NY 14202
Phone: 716-827-6421
Development @lackny.com

Requestor's Consultant: Richard Backert
C&S Engineers, Inc.
141 Elm Street Suite 100
Buffalo, NY 14203
Phone: 716-955-3024
Fax: 716-847-1454

Lackawanna, NY 14202
Phone: 716-827-6421
Development @lackny.com

Section VI - Current Property Owner/Operator Information

The Brownfield Cleanup Program Site is comprised of a portion of one parcel: 100 Dona Street (SBL 141.67-3-1) as noted in the form.

1. Parcel owner name and information are provided below:

Owner: City of Lackawanna
Contact: Richard Stanton
Address: City Hall
714 Ridge Road
Lackawanna, NY 14218
Phone: 716-827-6421
Email: development@lackny.com

Operator: City of Lackawanna
Contact: Richard Stanton
Director of Development
Address: City Hall
714 Ridge Road
Lackawanna, NY 14218
Phone: 716-827-6421
Email: development@lackny.com

The Applicant, City of Lackawanna has not operated or been involved with previous owners in the operation of the property at any time. The Applicant has had no legal relationship with the previous owner or operator.

2. Previous property owners and information are provided below:

The property was initially developed in March of 1917 as an elementary school. The property was owned by New Lincoln Elementary School up until 1985. Throughout the history of the property the address has switched between 90 and 100 Donna Street. After the site was utilized as an elementary school, minor expansions were done to the building on the property. The site then fell under management of the Friendship House of Western New York in September of 1989. The three-story building and property became owned by the City of Lackawanna in February of 2008 and the building on the proposed BCP property was demolished in September of 2018 in order to eliminate the physical hazards associated with the dilapidated structure.

100 Dona Street

Union School District 6 (1917)
100 Dona Street
Lackawanna, NY 14218
Last known Phone Number: Unknown
No relationship to requestor.

Union School District 6 (1985)
100 Dona Street
Lackawanna, NY 14218
Last known Phone Number: Unknown
No relationship to requestor.

Friendship House of Western New York (1989)
100 Dona Street
Lackawanna, NY 14218
Last Known Phone Number: Unknown
No relationship to requestor

The Applicant has had no legal relationship with any of the previous owners.
The previous owners were also the concurrent property operators.

Section VII - Requestor Eligibility Information (ECL §27-1407)

The City of Lackawanna, the Volunteer, is the current owner of the site and has not operated or been involved with the Site at any time and has had no legal relationship with or to any prior owner.

Section VIII - Property Eligibility Information (ECL §27-1405)

The BCP Site is not on the National Priorities List, not on the NYS Registry of Inactive Hazardous Waste Disposal Sites, not subject to permitting under ECL Article 27-16305, not subject to a cleanup order under Navigation Law Article 12 or ECL Article 17 Title 10, and not subject to state or federal enforcement actions related to hazardous waste or petroleum.

The anticipated post remediation use of the BCP Site is intended for residential housing. In order to do so, the Volunteer must remediate the property to Restricted Residential Soil Clean-up levels (Track 4) under 6 NYCRR Part 375. Since the Volunteer's BCP Site investigations to date show the presence of urban historic fill (at depths ranging from one to three feet in various locations throughout the property, primarily the eastern portion of the proposed BCP Site) containing contaminants in excess of the SCOs that will be applied to achieve this reasonably anticipated use of the proposed BCP Site. As a result, the site investigations to date establish that contamination is present at the property that exceeds the soil cleanup objectives and other health-based standards and goals set by the Department that would be applicable to the reasonably anticipated end-use of the property for residential purposes and, thereby, in its current state, renders the property unsuitable for the planned redevelopment of the property for construction of residential housing.

Section IX – Site Contact List

1. Local Government – City of Buffalo

Annette Iafallo
City of Lackawanna Mayor
City Hall, 714 Ridge Road
Lackawanna, NY 14218

Kathy Galanti

Lackawanna Public Library
560 Ridge Road
Lackawanna NY 14218

Section X - Land Use Factors

1. Current Zoning

The proposed BCP Site is zoned mixed residential, under the City of Lackawanna's Unified Zoning Ordinance. The mixed residential zone addresses the variety of housing styles and flexibility in building placement for mixed residential housing. It allows for residential buildings to reach a height of 3 stories or 30 feet.

Permitted building types in mixed residential include single unit dwellings, double unit dwellings, and multiple unit dwellings. Commercial aspects to the property may be included with the residential development of the proposed BCP property.

The Site is also located in a former New York state empire zone as well as on the border of the seaway overlay and LWRP boundary.

2. Current Uses: Summary of Business Operations

The Friendship House of Western New York ended operating the site and foreclosed in February 28, 2008. The building was demolished in September 22, 2018. The Site is currently vacant.

3. Intended Use – Post Remediation

The intended post remediation use of the proposed BCP Site will be for residential housing. The city of Lackawanna intends to create a Request for Development Proposals once the site gets into the BCP. They plan to find a developer willing to construct housing - single family homes – on the site. The developer will take over the property, the BCP work, and BCA from the city.

4. Current, Historical and/or Recent Development Patterns

After the property had become vacant in 2018, neighborhood revitalization has been a community priority for decades, progress is finally taking place, with an unprecedented number of development and public access projects underway. The proposed redevelopment of the Site is located within a Brownfield Opportunity Area that intends to advance the City's vision. The revitalization of this property will complement the surrounding residential areas as well as lead to future development of neighboring Sites in the City of Lackawanna.

Consistency with Zoning

As described above, permitted building types in mixed residential, include single and double unit dwellings, and multiple unit dwellings. The proposed development at the Site is a permitted use because the future developer intends to develop the Site for residential purposes with single, double or multiple unit dwellings.

The Site is also located in a former New York State empire Zone as well as on the border of the seaway overlay and LWRP boundary.

5. Consistency with Plans

The Dona Street area described in the City of Lackawanna First Ward Brownfield Opportunity Area Implementation Plan (December 2018) includes the proposed BCP Site and is directly on the border of the Local waterfront revitalization plan (LWRP). This area is a residential and commercial redevelopment target that is suited for mixed residential use redevelopment.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1925 through 2013. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR is licensed to reproduce certain City Directory works. Reproduction of City Directories without permission of the publisher may be a violation of copyright.

To: 'Carol Batt'
Subject: BCP Document Repository

Hello,

C&S Engineers is submitting a new Brownfield Cleanup Program Application for a property located at 201 Ellicott Street and would like the Central branch to act as the document repository for the project. In order for the application to be complete, we would need acknowledgement from the library that you are willing to be the document repository. Please let me know if that is acceptable.

Thank you,

Cody Martin

Subject: FW: Brownfield Cleanup program

Good afternoon Alayna,

I'm replying on behalf of Carol Batt regarding your request below.

This is to inform you that permission is granted to C&S Companies for the Buffalo and Erie County Public Library to be the repository for all present and future documents and updates that should be made available for public inspection/review. ***You will not need additional future permission.***

Please keep the following in mind:

-) Documents (including updates) for public inspection/review should be brought in person to the Central Library (second floor Administration Office) or mailed to the attention of Carol Batt, of whom I assist. Documents sent via e-mail will not be accepted. The mailing address is:

**Attention: Carol Ann Batt
Chief Operating Officer
Buffalo and Erie County Public Library
1 Lafayette Square
Buffalo, NY 14203**
-) Documents for the Central Library (downtown) are made available on the first floor in the Information Services Department usually within 3 days after receipt, not counting weekends.
-) If you would like document(s) distributed at libraries other than the Central Library (downtown), you will need to send the appropriate quantity of copies with labels regarding their destinations. We will distribute accordingly. We do not make copies for distribution.
-) It is your choice regarding the format (hard copy and/or disk) you wish to submit. If the document is very large, part in hard copy and part on disk is acceptable. If submitting in both formats, please be sure that they are titled/labeled accordingly. Although CD-ROMs cannot be used on public library computers, if someone brings in their personal laptop, the disc can be viewed in-house. If optional, an alternative is the availability of a provided

link to allow patrons online access to read/review/print. Patrons are not allowed to take the original documents out of the library.

If you still have any questions/concerns, please feel free to contact me by replying to this e-mail or by phone at 716-858-7129. Thank you.

Regards,
April

Subject: Brownfield Cleanup program

Hello again,

We are submitting another brownfield cleanup application for properties on North Street in the City of Buffalo and require acknowledgement for the application that the central Branch can act as the document repository for any BCP documents.

Thanks!

-Alayna
