Site Name: Former Hall-Welter Site

February 2017

Site No. 828194 **Tax Map No.** 121.48-1-80

Site Location: 38-46 Mt. Hope Avenue, City of Rochester, 14620

Inactive Hazardous Waste Disposal Site Classification Notice

The Inactive Hazardous Waste Disposal Site Program (the State Superfund Program) is the State's program for identifying, investigating, and cleaning up sites where the disposal of hazardous waste may present a threat to public health and/or the environment. The New York State Department of Environmental Conservation (DEC) maintains a list of these sites in the Registry of Inactive Hazardous Waste Disposal Sites (Registry). The site identified above, and located on a map on the reverse side of this page, has been added to the Registry as a Class 2 site that presents a significant threat to public health and/or the environment for the following reason(s):

On-site groundwater, soil vapor, and indoor air are contaminated with chlorinated volatile organic compounds (CVOCs) above relevant standards, criteria, and guidance. Actions are needed to address on-going exposure to site-related contamination. Additional investigation is warranted to define the nature and extent of site-related contamination, characterize potential human exposure pathways both on and off the property, and evaluate remedial alternatives.

DEC will keep you informed throughout the investigation and cleanup of the site.

If you own property adjacent to this site and are renting or leasing your property to someone else, please share this information with them. If you no longer wish to be on the contact list for this site or otherwise need to correct our records, please contact DEC's Project Manager listed below.

FOR MORE SITE INFORMATION

Additional information about this site can be found using DEC's "Environmental Site Remediation Database Search" engine which is located on the internet at:
