## Form MV-2.1C – Demonstration of Conformance with M&V Plan

Provide documentation that procedures and protocols specified in the M&V Plan were performed and records specified in the M&V Plan were generated and retained. All attached documentation must include a header that indicates it is an attachment to Form MV-2.1C and includes the offset project name and offset project ID code.

Check the boxes below to indicate that the following required documentation is provided as an attachment to Form MV-2.1C:

- 1. Identification of Sub-populations. Map to scale identifying how the area within the offset project boundary is divided into sub-populations for determining project carbon sequestration.
- 2. Identification of Sampling Plots. List of number, sizes, and locations of all sampling plots used for calculating carbon sequestration during the reporting period for each sub-population, including recent photos and distinct sampling plot identifiers.
- 3. Documentation of Direct Measurement Procedures Conducted for Each Carbon Pool in Each Sampling Plot. List for each carbon pool of all measurement procedures used to calculate carbon sequestered and cross reference of all procedures with those specified in the M&V Plan.
- 4. Assessment of Forest Management Practices if Commercial Timber Harvest Activities Have Occurred or Will Occur. If applicable, the assessment or certification issued by American Tree Farm System (ATFS), Forest Stewardship Council® (FSC®), Sustainable Forestry Institute® (SFI®), or such other similar organizations as approved by the Department ensuring that the land within the offset project boundary is being managed in accordance with environmentally sustainable forestry practices.
- 5. Documentation of Quality Assurance Procedures Conducted. Documentation of quality assurance procedures conducted during the reporting period to ensure accuracy in data collection, data analysis, and data storage, and cross reference of all procedures with those specified in the M&V Plan.
