

Contract Number	Contractor Name	Contract Description	Contract Award Date
C022891	CGI Technologies and Solutions	DEC Financial Management System (FMIS) application must stay under warranty and support of the vendor, Oracle Corporation. Proprietary software management to support the collection of Environmental Regulatory Program Fees as required by Article 72 of the Environmental Conservation Law	6/25/2021
C012187	Health Research Inc	The Department of Environmental Conservation (DEC) requires the implementation of two long term research projects geared at the development of two analytical methods for the detection of cyanotoxins. The Wadsworth Center is the New York State Department of Health's (DOH) research-intensive public health laboratory; it is the largest state-operated public health laboratory in the United States. Wadsworth's Division of Environmental Health Sciences (DEHS) includes the EPA-designated New York State principal laboratories for the analysis of environmental samples for organic, inorganic, and bacteriological contaminants. The work will be completed by New York State employees in a state-operated facility.	1/1/2021
C012269	Land Trust Alliance	Administraton of Forest Conservation Easements for Land Trusts Program The Land Trust Alliance has been specifically named in the annual Environmental Protection Fund appropriations under the Capital projects Bill, no other vendor is eligible to receive the funds	6/1/2021
C010887	TMA Systems	Proprietary software upgrade DEC Utilizes an asset tracking system. This procurement amendment is to add a user license and maintenance for that license through the term of the original agreement.	4/1/2018
C00173GG	Long Island Regional Planning Council	Amend Long Island Regional Planning Council to add additional funding appropriated in Capital Projects Bill Additional funds were provided for work on the Long Island Nitrogen Action Plan. Additional time is provided to utilize new funds.	1/1/2016

C012193	Tioga County Soil & Water Conservation District	<p>Annual dataset of implemented BMPs; training and education events for farmers, resource professionals, and watershed residents; and oversight of BMP projects supported by state and federal funding programs.</p> <p>The Upper Susquehanna Coalition (USC) will collect and process best management practices (BMP) data for required reporting to the Environmental Protection Agency (EPA); provide training, outreach, and education to farmers, resource professionals, and watershed residents; oversee project planning and implementation for BMPs to reduce pollutants delivered to the Chesapeake Bay; pursue additional funding sources for BMP implementation; and interact with the Chesapeake Bay Program on behalf of New York State. The USC provided all of these services under the annual funding it previously received directly from EPA and, more recently, under contract C009786</p>	10/1/2021
C012195	Suffolk County Department of Health Services	<p>Suffolk County Department of Health Services (SCDHS) will continue to collect and analyze groundwater samples from the Long Island aquifer system and provide the analytical data to the Department.</p> <p>The 1996 Pesticide Reporting Law amended Environmental Conservation Law Article 33, Title 7 by adding §33-0714. The provision required the Department to conduct a water quality monitoring program to collect information regarding the health risks and environmental impacts associated with pesticide usage in the State.</p>	4/1/2021
C00666GG	SUNY ESF	<p>The Center for Native Peoples and the Environment will collaborate with Indigenous Nations and DEC to provide high quality environmental education experiences that incorporate both scientific and indigenous approaches to conservation education in a cross-cultural context.</p> <p>Additional funds received by appropriation</p>	8/1/2018
C009748	Environmental Consultants LLC	<p>Maintenance service contract for North/South Lake Campground wastewater treatment plant infrastructure.</p> <p>The previous service contract, C009748 with Environmental Consultants LLC., expired on February 28, 2021. Efforts to procure a new contract were suspended due to Agency spending/funding uncertainties related to the COVID pandemic and then as instructed by Budget Bulletin b-1223. We are also experiencing increased public use at the campground. This development has created a health & safety risk. Without an active service contract, failure of additional wastewater treatment plant infrastructure could result in partial/full closure of the campground. Extension of the previous contract will allow procurement of a new service contract while maintaining the existing infrastructure.</p>	3/31/2021

C012271	National Opinion Research Center (NORC) at the University of Chicago	<p>Funding for The National Survey of Fishing, Hunting, and Wildlife-Associated Recreation (National Survey) to provide estimates of participation, effort, & expenditures for hunting, fishing, and wildlife watching.</p> <p>The National Opinion Research Center (NORC) at the University of Chicago was selected by the USFWS to conduct the 2022 survey through the competitive Multi-State Conservation Grant program. While national estimates of participation, effort, and expenditures will be paid for by USFWS, each individual state has to buy-in to get state-level estimates. Results of the national survey are critical to DEC for tracking hunter and angler numbers, determining economic impact, and calculating the state's federal aid apportionment. Failing to get a state-level estimate of participation will result in the loss of millions in federal aid funding, which is critical to fish and wildlife management programs.</p>	1/1/2022
