Public Fishing Rights Maps

West Branch of the Delaware River

Description of Fishery

The West Branch of the Delaware River is divided into two sections by the Cannonsville Reservoir. Downstream of the Cannonsville Reservoir, the West Branch is a tailwater fishery that supports excellent wild populations of brown, rainbow, and occasional brook trout (none are stocked); plus seasonal anadromous runs of American shad with reports of occasional striped bass. Upstream of the Cannonsville Reservoir, the river is stocked with over 14,000 brown trout by the DEC. In addition to the stocked fish, a wild brown trout population flourishes.

Note:
Special regulations apply. See Fishing Regulations Guide.

Fish Species Present

Brown Trout
Rainbow Trout
Brook Trout

Location

Delaware and Sullivan Counties

About Public Fishing Rights

Public Fishing Rights (PFR’s) are permanent easements purchased by the NYSDEC from willing landowners, giving anglers the right to fish and walk along the bank (usually a 33’ strip on one or both banks of the stream). This right is for the purpose of fishing only and no other purpose. Treat the land with respect to insure the continuation of this right and privilege. Fishing privileges may be available on some other private lands with permission of the land owner. Courtesy toward the land-owner and respect for their property will insure their continued use.

These generalized location maps are intended to aid anglers in finding PFR segments and are not survey quality. Width of displayed PFR may be wider than reality to make it more visible on the maps. Please look for this PFR sign to ensure that you are in the right location and have legal access to the stream bank.

For more information on this creek or if you believe PFR marked areas on these maps are incorrect or missing PFR signs, please call the Region 4 Fisheries office: (607) 652-7366.
