Vegetative Types and Stages

See Also: Timber and Vegetation (pg. 40), Timber and Vegetation Management (pg. 75), and Appendix F: Vegetation Management (pg. 147). A stand is a group of plants with similar characteristics that are analyzed and treated as a single unit. Each parcel is divided into one or more compartments, and each compartment divided into stands. Compartments are given a letter designation, and stands a number. This letter-number combination is used for tracking, mapping and planning the actions and activities that happen in and on Department owned land.
