Interim Recreation Management Plan

Lyme Adirondack Timberlands II, LLC Conservation Easement
Farrell Farm Tract
Tract: 10 WL1
DEC Project Number: Saratoga 54
Phase: II - III

Saratoga County
Towns of Day and Edinburg

Hamilton County
Town of Hope

I. Introduction:

The New York State Department of Environmental Conservation (“Department”) will have primary responsibility for managing public access and recreation. This Interim Recreational Plan (“Plan”) is intended to guide the initial establishment of public recreational access to lands owned by Lyme Adirondack Timberlands II, LLC (“LAT II”), as those lands become subject to the Phase II – III Conservation Easement. The Department will consult with LAT II to develop a Final Recreation Management Plan in accordance with the Conservation Easement within five years from closing Conservation Easement Phase II - III. This Plan incorporates the rights, privileges and obligations provided for in the Easement. By signing this Plan, the parties intend that the public recreational access and uses described herein shall become available to the public pursuant to the Conservation Easement, specifically Section 4.7. Public access will be allowed only when necessary facilities have been designated and developed and the parties have agreed on a method for equitably sharing the costs and responsibilities for routine maintenance and improvements pursuant to Section 4.7 of the Easement. Thereafter, public access may be suspended during mud season, or when LAT II establishes logging operation closure zones pursuant to the Easement. Public recreational use will be further evaluated and possibly expanded, in the Final Recreation Management Plan.

The Conservation Easement for the Farrell Farm Tract, Tract Number 10 grants the State of New York a legal interest in the Tract and sets forth terms, restrictions, and rights of LAT II and the State with respect to the Tract, and thus establishing a framework for its future use and management for public recreation. The Conservation Easement guarantees the State of New York the right to permit public access to the Tract, to participate in natural resource-based outdoor recreational activities. These initial uses and any additional public recreational opportunities, will be described in greater detail in the subsequent Final Recreation Management Plan.

Public recreation rights granted in the Conservation Easement but not included in this Interim Recreation Management Plan shall not be available for public enjoyment unless and until approved in subsequent Interim Recreation Management Plans or a Final Recreation Management Plan.

II. Tract Overview: *See Map: “FARRELL FARM TRACT, Saratoga 54, Public Recreation Access Map, Tract 10, Phase II - III,” dated January 5, 2007, attached.*

1. The land area known as the Farrell Farm Tract (“Tract”), is located in the Towns of Day and Edinburg in Saratoga County and in the Town of Hope, Hamilton County. This Interim Recreation Management Plan, however, addresses only lands designated as Tract 10.
2. The total land area subject to this Interim Recreation Management Plan is 12,009 +/- acres, all of which lands are subject to the terms of Conservation Easement-B.

Major Elements of the Interim Recreation Management Plan include the following:

1. Public access and recreation on the Tract will occur and be managed in accordance with the provisions of New York State Law, the Conservation Easement, and other relevant laws and regulations.
2. DEC will have primary responsibility for managing public access and recreation.
3. Identification of immediate and proposed uses that will be permitted on the Tract, consistent with existing laws and regulations such as state regulations.

III. Summary of Natural Resources:

1. Water Bodies: (See *Farrell Farm Map*)
2. Ponded Water: The Tract contains two bodies of water that are categorized as “ponded” water including Tenant Lake (1 acre and 0.67 acres) and Bullhead Pond (0.27 acres). A smaller water body within the Tract measures 0.5 acres, however it is private and will not be open to public use.
3. Watercourses: A complex network of watercourses exists within the Tract, including the Tenant Creek and Sand Creek, as well as many unnamed streams.
4. Wild, Scenic, and Recreational Rivers: There are no Wild, Scenic, or Recreational Rivers that run through the Tract.
5. Wetlands: Wetlands within the Tract are being inventoried and mapped by the Adirondack Park Agency. Wetlands are primarily concentrated along major drainages and in association with area lakes and ponds or rivers. Maps will be provided at a later date.
6. Vegetation: The lands within the Tract are almost entirely forested with species the result of past historical events, forest management, and differences in site factors, including soil types, soil moisture and climatic conditions determined by elevation, slope and aspect. A mixture of forest types can be found, including in order of abundance northern hardwoods, mixed woods, and softwoods of various size classes. A review of the Master Habitat Data Bank for this Tract found no endangered or threatened species or exemplary natural communities for the area.
7. Wildlife: The Tract is located within the Central Adirondack Mountain Ecological Zone of New York State. A comprehensive description of wildlife species of the region is being developed.
8. Hunting: Hunting by the public will not be allowed on the Tract.

9. Fishing: Fishing by the public is not allowed within the tract.
10. Visual/Scenic Areas: Ohmer Mountain is located within the eastern portion of the Tract allowing for an attractive view-shed.

IV. General and Specific Guidelines: This Interim recreation Management Plan shall implement public recreation on the portions of the Tract so designated for such uses, either in the Conservation Easement or in the Public Recreation Access Map, or both.

A. General Guidelines. Public recreational access shall be consistent with the Conservation Easement and the following general guidelines:

1. Safety.
2. Protecting natural resources; including the removal of trash or debris such as papers, bottles, cans, or other garbage left on the Tract by the public utilizing the Tract.
3. Not interfering with Grantor's Forest Management Activities.
4. The capacity of the Tract to accommodate public recreation.
5. To the greatest extent possible, motorized and non-motorized uses shall occur on existing roads and trails so the need for new trails is minimized.
6. The location and condition of trails, parking areas, and other recreational improvements shall be reviewed at least annually and more frequently, if necessary.
7. Public access and recreation on the Tract will occur and be managed in accordance with the provisions of New York State Law, the Conservation Easement, and other relevant laws and regulations, as well as this Plan.
8. Relationship to Adjacent Public Lands: When directly related to adjacent lands, public or private, the Final Recreation Management Plan may propose connecting uses such as trails for hiking and pedestrian activities, horseback riding, ATV and snowmobile corridors, and roadways for other motorized vehicle use.

B. Specific Guidelines. In addition to the general guidelines listed above, this Interim Recreation Management Plan and implementing public recreation on the Tract shall be consistent with the following specific guidelines:

1. *Snowmobile Use*. The main purpose of snowmobile use on the Tract is to connect existing snowmobile trails systems on and off the Tract. Trail design and maintenance standards shall conform to such manuals and guidelines which are in general use by the New York State Office of Parks, Recreation, and Historic Preservation at the time in question, or equivalent manuals and guidelines used by another State agency.
2. *Grantor's Recreation Leases*. Unless the parties agree to do so, public recreation on the Protected Property shall not conflict with or diminish Grantor's private recreation and camp leases ("camp lessees"), including lessees' ability to access their camps using

motorized vehicles.

V. Public Recreational Access. The following recreational access and uses are available to the public, in accordance with this Interim Recreation Management Plan.

Conservation Easement – B: Lands subject to the terms of “Conservation Easement - B” are currently leased to hunting and fishing clubs and, as such, public recreational access is restricted to designated hiking trails, designated snowmobile trails, and parking areas.

(a) Hiking Trails.

(i) Existing.

This Interim Recreation Management Plan does not identify existing public hiking trails.

(ii) Proposed. This Interim Recreation Management Plan does not propose new public hiking trails.

(b) Snowmobile Corridors. Public access by any type or form of motor vehicle is prohibited, except as provided specifically in this Section and by snowmobiles on those corridors designated for such use.

(i) Existing: The snowmobile trails identified on the *Farrell Farm Map* as “State Public Snowmobile Corridors” are open for public snowmobile use in accordance with this Interim Recreation Management Plan. No roads or trails have been designated for motorized vehicle or ATV use in this Interim Recreation Plan.

(ii) Proposed: This Interim Recreation Management Plan does not propose any snowmobile trails except the “State Public Snowmobile Corridors” identified on the *Farrell Farm Map*.

The Department is granted the right of administrative motorized access, to establish, develop, repair, maintain, abandon, groom, and relocated snowmobile trails and related trail improvements within the corridors. Trails and all related trail improvements shall not be located or maintained outside a corridor.

(c) Existing and Proposed Public Parking.

(i) This Interim Recreation Management Plan does not identify any existing public parking areas.

(ii) This Interim Recreation Management Plan does not propose new public parking areas.

(d) Future Parking, Not Yet Designated.

- (i) With regard to the trails located on Conservation Easement-B Tracts that cross a public highway, Grantee may establish parking areas, at the location of such crossing, for the parking of motor vehicles used by the public to access those trails, provided the location of the specific parking areas is identified in subsequent Recreation Management Plans or the Final Recreation Management Plan and subject to approval by LAT II.
- (ii) With regard to the trails on Conservation Easement-B Tracts that do not cross a public highway, Grantee may establish parking areas for the parking of motor vehicles used by the public to access those trails and the parties shall also designate a connector trail between the parking area and the trail. Both the connector trail and parking area must be identified in subsequent Interim Recreation Management Plans or the Final Recreation Management Plan subject to approval by LAT II.
- (iii) Any parking area established in accordance with the terms of Subsection 4.4(b)(2)(c) of the Easement may only be used by members of the public for access to snowmobile and hiking trails available for public use under the terms of this Easement, and for no other purposes. Further, any parking areas so established shall be limited in size to accommodate no more than ten (10) motorized vehicles.

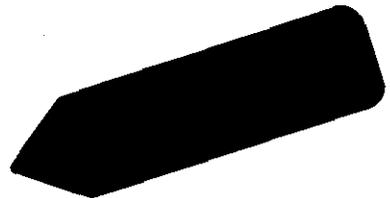

THE REMAINDER OF THIS PAGE INTENTIONALLY LEFT BLANK

Farrell Farm Tract
Tract No.: 10, WL1
DEC Project No.: Saratoga 54
Phase: II - III

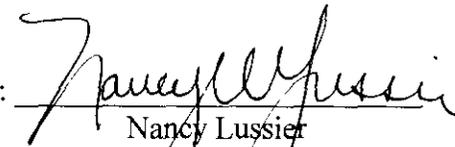

BY EXECUTING THIS INTERIM RECREATION MANAGEMENT PLAN, THE PARTIES
AGREE TO THIS PLAN AND INTEND TO BE BOUND BY ITS TERMS, SUBJECT TO THE
CONSERVATION EASEMENT.
