

# Sentinel Range Wilderness - Jackrabbit Ski Trail

Jackrabbit Ski Trail extends 3.1 miles between Lake Placid and Keene. On the Lake Placid end there is a small parking area off Mountain Lane near where it intersects with State Route 73. On the Keene side the trail starts at the end of Alstead Hill Lane. A small parking area is located at the property of an outfitter/lodging business. Hikers and skiers can travel on the lane through the private property to the State land. From the Lake Placid end, the trail ascends 200 feet in the first 0.75 mile and then descends 700 feet in 2.75 miles. The trail is in the notch between Pitchoff Mountain and the southern end of the Sentinel Range and it passes several beaver ponds.
