# Motor Vehicle Access for People with Disabilities for the Use of State Land

## MAPPWD ROUTES

MAPPWD permit holders are permitted uncommon access to state lands administered by the New York State Department of Environmental Conservation (DEC).

Permit holders can use a permitted vehicle to travel beyond the reach of public roads, to areas where others must hike or bike. The permit provides access for those who seek solitude, connection to nature, undisturbed wildlife habitat, and inclusion with fellow sportspeople.

MAPPWD Routes have been carefully selected to protect natural areas and recreational activities. Access is restricted to designated routes only.

NEW: Use the State Lands Interactive Mapper to view designated routes at <http://www.dec.ny.gov/outdoor/45415.html> . Click the Go To button to enter your address. Click the Select button, select the MAPPWD Route layer, select the State Land Name search field and enter the "Facility" name for the route you want to see. MAPPWD Routes are displayed as a black and white dotted line. Adjust zoom +/- as needed.

This list, updated April 9, 2019, contains all currently permitted routes and supersedes all previous listings. All routes are subject to closure due to seasonal conditions or maintenance. Contact your DEC regional office (page 15) for current information on specific routes. This list is maintained pursuant to DEC Commissioner's Policy 3 (CP-3).
