

# Vanderwhacker Mtn Wild Forest - Tower Trail

Tower Trail extends 2.5 miles and ascends 1,650 feet from the Tower Trailhead to the summit of Vanderwhacker Mountain (3,386 feet). The Vanderwhacker Mountain Fire Tower is located on the summit. The summit is thick with tall firs and birches, so the only views are from the cab of the fire tower. The 360° view includes the High Peaks to the north, the Boreas River valley to the east and the spectacular scenery of the Adirondacks spreads out for many miles in every direction.
