Subject: Tioga Energy Partners - Snyder E 1-A well
Attachments: Fracturing Fluid (revised cover sheet).PDF

Ms. Collart,

Attached please find a revised cover sheet that was inadvertently omitted from our responses to the Department's request for additional information. The cover sheet was meant to be included in the response to questions 3 c and 3 d in the "LPG Hydraulic Fracturing" section of the document. As noted in the response, the nitrogen and diesel fuel MSDS's were included because nitrogen and diesel fuel will be used for surface operations (but never as part of the hydraulic fracturing fluid). The attached cover sheet should help to provide clarity to the purpose of including the MSDS for nitrogen and diesel fuel in the application.

Please insert this revised cover sheet in the appropriate place in the application.

If you have any questions or comments, please let me know.

Thank you.
