Mr. Adam Schultz  
Tioga Energy Partners, LLC  
Box 2222  
Albany, NY 12201

Dear Mr. Schultz:

The New York State Department of Environmental Conservation (NYSDEC) is in receipt of Tioga's 4/22/16 electronic Notice of Intent (NOI) (Submission #284-F5AZ-SQ5X, version 3) for coverage under GP-0-15-002 for the Snyder Well project located in Barton, New York.

The NYSDEC's review of the NOI has determined that Question 22 is answered "no" when it should be answered "yes" as this project did require a Stormwater Pollution Prevention Plan (SWPPP) that includes a post-construction stormwater management practice component.

Also, please be advised that pursuant to Part II.B.2 of GP-0-15-002, "[a]uthorization to discharge under this permit will be effective when the *owner or operator* has satisfied all of the following criteria: a. project review pursuant to the State Environmental Quality Review Act ("SEQRA") have been satisfied, when SEQRA is applicable." It is NYSDEC's understanding that review pursuant to SEQRA has not been completed with respect to the Snyder Well project; therefore, Tioga is not authorized to discharge.

Sincerely,

Toni Cioffi  
Environmental Program Specialist
