NYS Food Donation & Food Scraps Recycling Law: What NYS Businesses Need to Know

Sally Rowland Ph.D., P.E.
Organics Reduction and Recycling Section, Division of Materials Management

June 22, 2021
NYS Department of Environmental Conservation
Organics Reduction & Recycling Section

Regulate and promote the diversion of organics (wasted food, yard waste, biosolids, food processing waste, etc.) from disposal to beneficial uses.

• Regulatory Oversight
• Legislation
• Funding Programs
• Outreach & Education

Food Donation and Food Scraps Recycling Law

Effective January 1, 2022, businesses that generate an annual average of two tons of wasted food per week or more must...

1. donate excess edible food to the maximum extent practicable; and
2. recycle all remaining food scraps if they are within 25 miles of an organics recycler (composting facility, anaerobic digester, etc.).

Exclusions:

- Hospitals
- Nursing Homes
- Adult Care Facilities
- Elementary and secondary schools
- New York City ([local law 146](#))
- Generators serviced by a mixed waste recycler (Delaware County)
- Farms
Proposed Part 350 Regulations

• **Part 350** accompanies NYS Food Donation & Food Scraps Recycling law

• Food safety still regulated by NYSDOH & NYSDAM

• Public Comment Period Closed April 27, 2021

Note: No changes to Part 361 for the law – Organics Recycling Facilities

- Methodology used to determine covered generators
- List of generators required to donate
- List of generators required to donate and recycle
- Waiver Form for generators
- Annual Report Form for generators
- List of food scraps recyclers
- List of food scraps transporters
What is a Designated Food Scraps Generator (DFSG)?

- Business or institution that generates ≥ 2 tons per week (annual average) at a single location.
- For multiple small entities (mall or college campus) – depends on who contracts for waste management.

List of Designated Food Scraps Generators – Published June 1, 2021

Email FoodScrapsLaw@dec.ny.gov for excel version

DFSG must comply with requirements of law by January 1, 2022.
List denotes if DFSG is required to donate OR donate and recycle.

Total Required to Donate: 1,334
Total Required to Recycle Food Scraps: 377
Food Scraps Recycling Requirement

• DEC is tasked with assessing the capacity of each organic recycler and notifying DFSGs if they are required to recycle their food scraps

• DFSG must recycle their food scraps if…
  - Within 25 miles of a food scraps recycler (defined as the crow flies)
  - Organics recycler has capacity for all of their food scraps

If both criteria are met, then food scraps must be recycled, BUT can use any food scraps recycler of their choice.
Food Scraps Recycling Capacity Assessment

• Determination of excess recycling capacity across NYS
  • Excess Capacity Per Facility = (Anticipated recycling capacity in 2022) – (Quantity processed in 2019)
  • Excess Capacity must be ≥2 tons of food scraps/wk for inclusion in analysis

• DFSG Food Scraps Generation Estimate
  • DFSG Food Scraps Generation Estimate = (Sector Factor) * (# of Employees)
  • Estimate includes projected wasted food – edible and inedible

• Adjusted Recycling Estimate
  • Applied factor of 0.4 to DFSG Food Scraps Generation Estimate to account for:
    ▪ current waste reduction practices
    ▪ current donation practices
    ▪ food that might not be capable of being recycled (packaged, etc.)
Food Scraps Recycling Capacity Assessment Cont.

- Identifying those Required to Recycle
  - Identified DFSG within 25 miles of food scraps recycler
  - Excluded DFSG whose food scraps generation estimate was greater than excess recycling capacity of facility
  - Took note of DFSG who are already recycling food scraps
  - Compared excess recycling capacity of facility to adjusted recycling estimate of DFSGs

DFSG required to recycle will be assessed annually.

If a new food scraps recycler starts operating, DEC will notify DFSG if their requirements change.
# Recycling Capacity Assessment Example

<table>
<thead>

**Excess Capacity of Food Scraps Recycler AAA: 6.5 tons/wk**
Food Donation Efforts

• NYS Food Donation Working Group
  • Reviewed proposed Part 350 Regulations
  • Reviewed food donation guidance for businesses
  • Planning Fall Webinar: Setting up a Food Donation Program

• Working with NYS Department of Health and NYS Department of Agriculture & Markets on consistent regulatory enforcement
Partnering with Feeding New York State

Funding

• $1.5 million COVID-19 relief funding

• **NEW** - $500,000 *Donation Technical Assistance for Businesses*
  ▪ Manage a call center for information on donating (518-930-7000)
  ▪ Educate on proper food safety practices when donating food
  ▪ Enhance connection between businesses, food banks, and other emergency food relief programs

▪ Webpage: [https://feedingnys.org/food-scrap-recycling-law/](https://feedingnys.org/food-scrap-recycling-law/)
Published June 1\textsuperscript{st}

DEC published the following to its \textit{website} June 1\textsuperscript{st}, 2021

- Methodology used to determine covered generators
- List of generators required to donate
- List of generators required to donate and recycle
- Waiver Form for generators
- Annual Report Form for generators
- List of food scraps recyclers
- List of food scraps transporters
DFSG Waiver Process

Temporary Waiver

- Prove undue hardship
- No longer than 1 year in duration, can be renewed
- Submit to FoodScrapsLaw@dec.ny.gov by October 1, 2021 for 2022 reporting year
- View waiver form
Waiver Process - Justifications

- Generator does not produce more than 2 tons of food scraps per week (annual average)
- The total cost of organics recycling is at least 10% greater than the total cost of landfilling or combustion
- There are no organics recycler(s) within 25 miles with sufficient capacity
- A food scraps transporter is not available to service the generator
- Unique circumstances that apply to the generator

To petition for a waiver from provisions of the law that are not listed below (food donation, etc), please contact FoodScrapsLaw@dec.ny.gov.
Published June 1st

DEC published the following to its website June 1st, 2021

- Methodology used to determine covered generators
- List of generators required to donate
- List of generators required to donate and recycle
- Waiver Form for generators
- Annual Report Form for generators
- List of food scraps recyclers
- List of food scraps transporters
DFSG Annual Reporting

• Required to submit annual report to DEC – amount donated and recycled, transporter and recycler used, etc.

• Due March 1, 2023 and annually thereafter
What’s Coming June 1st?

DEC will publish the following to its website June 1st, 2021

- Methodology used to determine covered generators
- List of generators required to donate
- List of generators required to donate and recycle
- Best management practices for generators to comply with law
- Waiver Form for generators
- Annual Report Form for generators
- List of food scraps recyclers
- List of food scraps transporters
Food Scraps Recyclers List

As a resource for businesses, DEC published a list of food scrap recyclers, sorted by county located in

Note: DFSG are not required to use food scrap recycler published on Food Scraps Recyclers list

Mapping Tools: Organics Recycling Facilities Across the State

• NYS Organics Resource Locator
• NYS Open Data Composting - Solid Waste Management Facilities Map
Food Scraps Recycling Opportunities

• Composting

• Anaerobic Digestion

• Animal Feed
  • Beneficial Use Determination
  • Exempt: Bread, bakery products, and spent brewery grains

And more!
Increasing Food Scraps Recycling Capacity

• Contact organicrecycling@dec.ny.gov if you are interested in starting or expanding your food scraps recycling facility (composting, AD, etc.)

• Summary of Organics Recycling Regulations
  • Food scraps recycling facilities are regulated by the quantity of material being processed and technology used
Food Scraps Transporters List

- As a resource for businesses, DEC published a list of available food scraps transporters, sorted by county serviced

- Add your transporter business to the list

- Guidance for Food Scraps Transporters (PDF)
Outreach

• Letters mailed to designated food scraps generators June 1st
• Developing outreach plan for exempt entities
• DEC available to speak to associations, corporations and businesses on the requirements of the law – please contact FoodScrapsLaw@dec.ny.gov

• Upcoming Webinars
  • August 2021: Building Food Scraps Recycling Capacity
  • September 28, 2021: How to Set Up a Food Scraps Recycling Program
  • October 2021: How to Set Up a Food Donation Program
Guidance Documents

- Food retail & food service industry: Best management practices for wasted food reduction, food donation, and food scraps recycling to demonstrate compliance with the law – coming soon

- Food Scraps Transporters (PDF)
- Transfer Facilities (PDF)
- Landfills (PDF)
- Combustion Facilities (PDF)
Preparing for 2022: Timeline

- **August 2021:** Building Food Scraps Recycling Capacity – *registration opening soon*
- **September 28, 2021:**
  - Two Part Webinar Series for Designated Food Scraps Generators
    - September 28, 2021: How to Set up a Food Scraps Recycling Program
    - T.B.D. – October 2021: How to Set up a Food Donation Program
- **October 1, 2021:** Waiver Due Date for 2022
- **January 1, 2022:** Effective Date of Law
