Facility Location: in TORREY in YATES COUNTY

Facility Principal Reference Point: NYTM-E: 340.346 NYTM-N: 4727.025
Latitude: 42°40'44.9" Longitude: 76°56'55.0"

Authorized Activity: The Facility is a primarily natural gas-fired electric generating plant, with a generating capacity of approximately 107 megawatts (MW) with a maximum heat input which is limited to 1,117 BTUs per hour. While the Department is making a draft Title V and Title IV permit available for public review and comment, the Department has not made a tentative or final determination to issue any final permit for the Facility. The Title V and Title IV renewal applications request renewal of the existing permits, with revisions limited to: removal of the diesel fire pump permit conditions, because the diesel fire pump has been taken out of service and removed from the Facility; and a request for minor revisions to the monitoring requirements for particulate emissions (PM-10, PM-2.5 and Particulates), which include the use of a flowmeter for the Facility to demonstrate continuous compliance with the existing PM-10, PM-2.5, and Particulates permit conditions.
