Division of Air Resources

Facility DEC ID: 7034600225

PERMIT
Under the Environmental Conservation Law (ECL)

IDENTIFICATION INFORMATION

Permit Type: Air State Facility
Permit ID: 7-0346-00225/00001
Effective Date: Expiration Date:

Permit Issued To: IMPERIUM3 NEW YORK INC
SUNY BINGHAMTON
2226 CENTER OF EXCELLENCE
BINGHAMTON, NY 13902

Contact: WILLIAM SHANNON
2228 COE
45 Murray Hill Road
Vestal, NY 13850
(650) 453-8350

Facility: IMPERIUM 3NY
1301 CLARK ST
ENDICOTT, NY 13760

Description:
State facility permit authorizing construction and operation of lithium-ion battery manufacturing.

By acceptance of this permit, the permittee agrees that the permit is contingent upon strict compliance with the ECL, all applicable regulations, the General Conditions specified and any Special Conditions included as part of this permit.

Permit Administrator: ELIZABETH A TRACY
615 ERIE BLVD W
SYRACUSE, NY 13204-2400

Authorized Signature: ___________________________ Date: ___ / ___ / ______
Notification of Other State Permittee Obligations

Item A: Permittee Accepts Legal Responsibility and Agrees to Indemnification

The permittee expressly agrees to indemnify and hold harmless the Department of Environmental Conservation of the State of New York, its representatives, employees and agents ("DEC") for all claims, suits, actions, and damages, to the extent attributable to the permittee's acts or omissions in connection with the compliance permittee's undertaking of activities in connection with, or operation and maintenance of, the facility or facilities authorized by the permit whether in compliance or not in any compliance with the terms and conditions of the permit. This indemnification does not extend to any claims, suits, actions, or damages to the extent attributable to DEC's own negligent or intentional acts or omissions, or to any claims, suits, or actions naming the DEC and arising under article 78 of the New York Civil Practice Laws and Rules or any citizen suit or civil rights provision under federal or state laws.

Item B: Permittee's Contractors to Comply with Permit

The permittee is responsible for informing its independent contractors, employees, agents and assigns of their responsibility to comply with this permit, including all special conditions while acting as the permittee's agent with respect to the permitted activities, and such persons shall be subject to the same sanctions for violations of the Environmental Conservation Law as those prescribed for the permittee.

Item C: Permittee Responsible for Obtaining Other Required Permits

The permittee is responsible for obtaining any other permits, approvals, lands, easements and rights-of-way that may be required to carry out the activities that are authorized by this permit.

Item D: No Right to Trespass or Interfere with Riparian Rights

This permit does not convey to the permittee any right to trespass upon the lands or interfere with the riparian rights of others in order to perform the permitted work nor does it authorize the impairment of any rights, title, or interest in real or personal property held or vested in a person not a party to the permit.

### Facility Level
- Submission of application for permit modification or renewal-REGION 7 SUBOFFICE - CORTLAND
Condition 1: Facility Inspection by the Department

Applicable State Requirement: ECL 19-0305

Item 1.1:
The permitted site or facility, including relevant records, is subject to inspection at reasonable hours and intervals by an authorized representative of the Department of Environmental Conservation (the Department) to determine whether the permittee is complying with this permit and the ECL. Such representative may order the work suspended pursuant to ECL 71-0301 and SAPA 401(3).

Item 1.2:
The permittee shall provide a person to accompany the Department's representative during an inspection to the permit area when requested by the Department.

Item 1.3:
A copy of this permit, including all referenced maps, drawings and special conditions, must be available for inspection by the Department at all times at the project site or facility. Failure to produce a copy of the permit upon request by a Department representative is a violation of this permit.

Condition 2: Relationship of this Permit to Other Department Orders and Determinations

Applicable State Requirement: ECL 3-0301 (2) (m)

Item 2.1:
Unless expressly provided for by the Department, issuance of this permit does not modify, supersede or rescind any order or determination previously issued by the Department or any of the terms, conditions or requirements contained in such order or determination.

Condition 3: Applications for permit renewals, modifications and transfers

Applicable State Requirement: 6 NYCRR 621.11

Item 3.1:
The permittee must submit a separate written application to the Department for renewal, modification or transfer of this permit. Such application must include any forms or supplemental information the Department requires. Any renewal, modification or transfer granted by the Department must be in writing.

Item 3.2:
The permittee must submit a renewal application at least 180 days before the expiration of permits for Title V and State Facility Permits.

Item 3.3
Permits are transferrable with the approval of the department unless specifically prohibited by the statute, regulation or another permit condition. Applications for permit transfer should be submitted prior to actual transfer of ownership.

Condition 4: Permit modifications, suspensions or revocations by the Department
Facility DEC ID: 7034600225

Applicable State Requirement: 6 NYCRR 621.13

Item 4.1:
The Department reserves the right to exercise all available authority to modify, suspend, or revoke this permit in accordance with 6NYCRR Part 621. The grounds for modification, suspension or revocation include:

a) materially false or inaccurate statements in the permit application or supporting papers;
b) failure by the permittee to comply with any terms or conditions of the permit;
c) exceeding the scope of the project as described in the permit application;
d) newly discovered material information or a material change in environmental conditions, relevant technology or applicable law or regulations since the issuance of the existing permit;
e) noncompliance with previously issued permit conditions, orders of the commissioner, any provisions of the Environmental Conservation Law or regulations of the Department related to the permitted activity.

**** Facility Level ****

Condition 5: Submission of application for permit modification or renewal-REGION 7
SUBOFFICE - CORTLAND
Applicable State Requirement: 6 NYCRR 621.6 (a)

Item 5.1:
Submission of applications for permit modification or renewal are to be submitted to:
NYSDEC Regional Permit Administrator
Region 7 Sub-office
Division of Environmental Permits
1285 Fisher Avenue
Cortland, NY 13045-1090

NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS
This section contains terms and conditions which are federally enforceable. Permittees may also have other obligations under regulations of general applicability

Item A: Sealing - 6 NYCRR 200.5
The Commissioner may seal an air contamination source to prevent its operation if compliance with 6 NYCRR Chapter III is not met within the time provided by an order of the Commissioner issued in the case of the violation. Sealing means labeling or tagging a source to notify any person that operation of the source is prohibited, and also includes physical means of preventing the operation of an air contamination source without resulting in destruction of any equipment associated with such source, and includes, but is not limited to, bolting, chaining or wiring shut control panels, apertures or conduits associated with such source.

No person shall operate any air contamination source sealed by the Commissioner in accordance with this section unless a modification has been made which enables such source to comply with all requirements applicable to such modification.

Unless authorized by the Commissioner, no person shall remove or alter any seal affixed to any contamination source in accordance with this section.

Item B: Acceptable Ambient Air Quality - 6 NYCRR 200.6
Notwithstanding the provisions of 6 NYCRR Chapter III, Subchapter A, no person shall allow or permit any air contamination source to emit air contaminants in quantities which alone or in combination with emissions from other air contamination sources would contravene any applicable ambient air quality standard and/or cause air pollution. In such cases where contravention occurs or may occur, the Commissioner shall specify the degree and/or method of emission control required.

Item C: Maintenance of Equipment - 6 NYCRR 200.7
Any person who owns or operates an air contamination source which is equipped with an emission control device shall operate such device and keep it in a satisfactory state of maintenance and repair in accordance with ordinary and necessary practices, standards and procedures, inclusive of manufacturer's specifications, required to operate such device effectively.

Item D: Unpermitted Emission Sources - 6 NYCRR 201-1.2
(a) Except as otherwise provided by this Part, construction or operation of a new, modified or existing air contamination source without a registration or permit issued pursuant to this Part is
(b) If an existing facility or emission source was subject to the
permitting requirements of this Part at the time of construction or
modification, and the owner or operator failed to apply for a permit
or registration as described in this Part, the owner or operator must
apply for a permit or registration in accordance with the provisions
of this Part. The facility or emission source is subject to all
regulations that were applicable to it at the time of construction or
modification and any subsequent requirements applicable to existing
emission sources.

Item E: Recycling and Salvage - 6 NYCRR 201-1.7

Where practical, any person who owns or operates an air contamination
source shall recycle or salvage air contaminants collected in an air
cleaning device according to the requirements of 6 NYCRR.

Item F: Prohibition of Reintroduction of Collected Contaminants to the Air -
6 NYCRR 201-1.8

No person shall unnecessarily remove, handle, or cause to be handled,
collected air contaminants from an air cleaning device for recycling,
salvage or disposal in a manner that would reintroduce them to the
outdoor atmosphere.

Item G: Proof of Eligibility for Sources Defined as Exempt Activities - 6
NYCRR 201-3.2 (a)

The owner and/or operator of an emission source or unit that is
eligible to be exempt, may be required to certify that it operates
within the specific criteria described in 6 NYCRR Subpart 201-3. The
owner or operator of any such emission source must maintain all
required records on-site for a period of five years and make them
available to representatives of the Department upon request.
Department representatives must be granted access to any facility
which contains emission sources or units subject to 6 NYCRR Subpart
201-3, during normal operating hours, for the purpose of determining
compliance with this and any other state and federal air pollution
control requirements, regulations, or law.

Item H: Proof of Eligibility for Sources Defined as Trivial Activities - 6
NYCRR 201-3.3 (a)

The owner and/or operator of an emission source or unit that is
listed as being trivial in 6 NYCRR Part 201 may be required to certify
that it operates within the specific criteria described in 6 NYCRR
Subpart 201-3. The owner or operator of any such emission source must
maintain all required records on-site for a period of five years and
make them available to representatives of the Department upon request.
Department representatives must be granted access to any facility
which contains emission sources or units subject to 6 NYCRR Subpart
201-3, during normal operating hours, for the purpose of determining
compliance with this and any other state and federal air pollution
control requirements, regulations, or law.
Item I: Required Emission Tests - 6 NYCRR 202-1.1

An acceptable report of measured emissions shall be submitted, as may be required by the Commissioner, to ascertain compliance or noncompliance with any air pollution code, rule, or regulation. Failure to submit a report acceptable to the Commissioner within the time stated shall be sufficient reason for the Commissioner to suspend or deny an operating permit. Notification and acceptable procedures are specified in 6 NYCRR Subpart 202-1.

Item J: Open Fires Prohibitions - 6 NYCRR 215.2

Except as allowed by section 215.3 of 6 NYCRR Part 215, no person shall burn, cause, suffer, allow or permit the burning of any materials in an open fire.

Item K: Permit Exclusion - ECL 19-0305

The issuance of this permit by the Department and the receipt thereof by the Applicant does not and shall not be construed as barring, diminishing, adjudicating or in any way affecting any legal, administrative or equitable rights or claims, actions, suits, causes of action or demands whatsoever that the Department may have against the Applicant for violations based on facts and circumstances alleged to have occurred or existed prior to the effective date of this permit, including, but not limited to, any enforcement action authorized pursuant to the provisions of applicable federal law, the Environmental Conservation Law of the State of New York (ECL) and Chapter III of the Official Compilation of the Codes, Rules and Regulations of the State of New York (NYCRR). The issuance of this permit also shall not in any way affect pending or future enforcement actions under the Clean Air Act brought by the United States or any person.

Item L: Federally Enforceable Requirements - 40 CFR 70.6 (b)

All terms and conditions in this permit required by the Act or any applicable requirement, including any provisions designed to limit a facility's potential to emit, are enforceable by the Administrator and citizens under the Act. The Department has, in this permit, specifically designated any terms and conditions that are not required under the Act or under any of its applicable requirements as being enforceable under only state regulations.

FEDERAL APPLICABLE REQUIREMENTS

The following conditions are federally enforceable.

Condition 1: Acceptable Ambient Air Quality

Effective for entire length of Permit

Applicable Federal Requirement: 6 NYCRR 200.6

Item 1.1:
Notwithstanding the provisions of 6 NYCRR Chapter III, Subchapter A, no person shall allow or permit any air contamination source to emit air contaminants in quantities which alone or in combination with emissions from other air contamination sources would contravene any applicable ambient air quality standard and/or cause air pollution. In such cases where contravention occurs or may occur, the Commissioner shall specify the degree and/or method of emission control required.

**Condition 2: Maintenance of Equipment**

*Effective for entire length of Permit*

**Applicable Federal Requirement:** 6 NYCRR 200.7

**Item 2.1:**
Any person who owns or operates an air contamination source which is equipped with an emission control device shall operate such device and keep it in a satisfactory state of maintenance and repair in accordance with ordinary and necessary practices, standards and procedures, inclusive of manufacturer's specifications, required to operate such device effectively.

**Condition 3: Compliance Demonstration**

*Effective for entire length of Permit*

**Applicable Federal Requirement:** 6 NYCRR 200.6

**Item 3.1:**
The Compliance Demonstration activity will be performed for the Facility.

**Item 3.2:**
Compliance Demonstration shall include the following monitoring:

- **Monitoring Type:** RECORD KEEPING/MAINTENANCE PROCEDURES
- **Monitoring Description:**
  No later than 180 days after the effective date of this permit and prior to commencing operation, the owner or operator shall submit to the Department a plan to minimize the risk of fire. The plan shall address proper storage, handling and transportation. The owner or operator shall review fire suppression techniques employed at other lithium ion battery facilities and include in the plan as appropriate.

  This plan shall be updated annually as needed.

- **Monitoring Frequency:** AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
- **Reporting Requirements:** ANNUALLY (CALENDAR)
- **Reports due:** 30 days after the reporting period.
- **Subsequent reports are due every 12 calendar month(s).**

**Condition 4: Compliance Demonstration**

*Effective for entire length of Permit*

**Applicable Federal Requirement:** 6 NYCRR 200.7

Air Pollution Control Permit Conditions
Page 7 DRAFT
Item 4.1:
The Compliance Demonstration activity will be performed for the Facility.

Item 4.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES
Monitoring Description:
1. The owner or operator shall submit to the DEC, no later than 180 days after commencing operation, a Operation and Maintenance Plan for the emission control equipment and emission capture systems, including exhaust recycle flows; used at the facility.

2. The plan shall include:
   i) operating ranges for each thermal oxidizer, condenser, fabric filter and dust collector;
   ii) a preventive maintenance checklist for each control device and capture system; and
   iii) a plan, including schedule, for calibrating each temperature monitoring device.

3. Maintenance activities shall be recorded in a log.

4. The owner or operator shall state, in the annual certification, whether he or she has complied with this condition.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
Reporting Requirements: ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
Subsequent reports are due every 12 calendar month(s).

Condition 5: Visible Emissions Limited
Effective for entire length of Permit

Applicable Federal Requirement: 6 NYCRR 211.2

Item 5.1:
Except as permitted by a specific part of this Subchapter and for open fires for which a restricted burning permit has been issued, no person shall cause or allow any air contamination source to emit any material having an opacity equal to or greater than 20 percent (six minute average) except for one continuous six-minute period per hour of not more than 57 percent opacity.

Condition 6: Compliance Demonstration
Effective for entire length of Permit

Applicable Federal Requirement: 6 NYCRR 212-1.6 (a)

Item 6.1:
The Compliance Demonstration activity will be performed for the facility:
The Compliance Demonstration applies to:

- Emission Unit: 1-LTHBT, Emission Point: STCK5
- Emission Unit: 1-LTHBT, Emission Point: STCK6
- Emission Unit: 1-LTHBT, Emission Point: STK11

**Item 6.2:**
Compliance Demonstration shall include the following monitoring:

**Monitoring Type:** MONITORING OF PROCESS OR CONTROL DEVICE PARAMETERS AS SURROGATE

**Monitoring Description:**
1. No person shall cause or allow emissions to the outdoor atmosphere having an average opacity of 20 percent or greater for any consecutive six-minute period from any emission source subject to this Subpart.

2. Compliance shall be determined using EPA Method 9. Testing shall be conducted at the request of the Department.

Parameter Monitored: OPACITY
Upper Permit Limit: 20 percent
Reference Test Method: 40CFR Part 60 Appendix A Method 9
Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
Averaging Method: 6-MINUTE AVERAGE (METHOD 9)
Reporting Requirements: ONCE / BATCH OR MONITORING OCCURRENCE

**Condition 7:** Compliance Demonstration Effective for entire length of Permit

**Applicable Federal Requirement:** 6 NYCRR 212-1.7 (b)

**Item 7.1:**
The Compliance Demonstration activity will be performed for the facility:
The Compliance Demonstration applies to:

- Emission Unit: 1-LTHBT, Emission Point: STCK5

**Item 7.2:**
Compliance Demonstration shall include the following monitoring:

**Monitoring Type:** RECORD KEEPING/MAINTENANCE PROCEDURES

**Monitoring Description:**
1. The owner or operator shall install, calibrate, operate and maintain a device for measuring and recording the exhaust gas temperature of the refrigerated condenser.

2. The condenser shall be operated at or below the temperature recorded during the most recent compliant emission test, looking forward, at all times when electrolyte is used in the secondary filling station. The averaging period shall be each three hour block.
3. The owner or operator shall notify the DEC of each period when the condenser outlet temperature does not satisfy the criteria in Item 1 above, including discharges when the condenser is not operating. Such notifications shall be made no later than 48 hours after becoming aware of such occurrence, and shall be reported in writing no later than 30 days after such occurrence. The notification shall state the date and time of such period of noncompliance, the duration of such excess emission, the cause and the corrective action taken, if any.

4. The owner or operator shall measure and record the amount of solvent recovered from each condenser on a weekly or monthly basis. The percentage of solvent recovered, compared to the solvent used during coating, shall be computed and recorded.

5. The owner or operator shall, in the annual certification, state whether he or she has complied with this requirement.

Monitoring Frequency: CONTINUOUS
Reporting Requirements: ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
Subsequent reports are due every 12 calendar month(s).

Condition 8: Compliance Demonstration
Effective for entire length of Permit

Applicable Federal Requirement: 6 NYCRR 212-1.7 (b)

Item 8.1:
The Compliance Demonstration activity will be performed for the facility:
The Compliance Demonstration applies to:

Emission Unit: 1-LTHBT
Process: CAT
Emission Source: RTO01

Emission Unit: 1-LTHBT
Process: CAT
Emission Source: RTO02

Item 8.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES
Monitoring Description:
1. The owner or operator shall install, calibrate, operate and maintain a device for measuring and recording the exhaust gas temperature of each thermal oxidizer at the facility.

2. Each thermal oxidizer shall be operated at or above the temperature recorded during the most recent compliant emission test, looking forward, at all times when acetone is used in the coating formulation. The averaging period shall be each three hour block.
3. The owner or operator shall notify the DEC of each period when the oxidizer temperature does not satisfy the criteria in Item 1 above, including discharges with the oxidizer is not operating. Such notifications shall be made no later than 48 hours after becoming aware of such occurrence, and shall be reported in writing no later than 30 days after such occurrence. The notification shall state the date and time of such period of noncompliance, the duration of such excess emission, the cause and the corrective action taken, if any.

3. The owner or operator shall, in the annual certification, state whether he or she has complied with this requirement.

Monitoring Frequency: CONTINUOUS
Reporting Requirements: ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
Subsequent reports are due every 12 calendar month(s).

**Condition 9: Compliance Demonstration**
**Effective for entire length of Permit**

**Applicable Federal Requirement:** 6 NYCRR 212-2.4 (b)

**Item 9.1:**
The Compliance Demonstration activity will be performed for the facility:
The Compliance Demonstration applies to:

- Emission Unit: 1-LTHBT  Emission Point: STCK5
- Emission Unit: 1-LTHBT  Emission Point: STCK6
- Emission Unit: 1-LTHBT  Emission Point: STK11

Regulated Contaminant(s):
CAS No: 0NY075-00-0  PARTICULATES

**Item 9.2:**
Compliance Demonstration shall include the following monitoring:

Monitoring Type: INTERMITTENT EMISSION TESTING
Monitoring Description:
The facility consists of multiple general process sources that are subject to the particulate limit of Part 212. No particulate emissions are expected; this condition is being included for completeness.

1. The facility owner or operator shall not cause or allow emissions of particulate that exceed 0.050 grains per cubic foot of exhaust gas, expressed at standard conditions on a dry gas basis.

2. Compliance shall be determined through emissions testing conducted...
in accordance with a protocol approved by the DEC and 6 NYCRR 202-1.

3. Testing shall be conducted at the request of the DEC.

Parameter Monitored: PARTICULATES
Upper Permit Limit: 0.05 grains per cubic foot
Monitoring Frequency: UPON REQUEST OF REGULATORY AGENCY
Averaging Method: Arithmetic average of stack test runs
Reporting Requirements: ONCE / BATCH OR MONITORING OCCURRENCE

Condition 10: Compliance Demonstration Effective for entire length of Permit

Applicable Federal Requirement: 6 NYCRR 228-1.3 (a)

Item 10.1:
The Compliance Demonstration activity will be performed for the facility:
The Compliance Demonstration applies to:

<table>
<thead>
<tr>
<th>Emission Unit: 1-LTHBT</th>
<th>Emission Point: STCK4</th>
</tr>
</thead>
<tbody>
<tr>
<td>Emission Unit: 1-LTHBT</td>
<td>Emission Point: STCK7</td>
</tr>
<tr>
<td>Emission Unit: 1-LTHBT</td>
<td>Emission Point: STCK8</td>
</tr>
</tbody>
</table>

Item 10.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: MONITORING OF PROCESS OR CONTROL DEVICE PARAMETERS AS SURROGATE
Monitoring Description:
1. No person shall cause or allow emissions to the outdoor atmosphere having an average opacity of 20 percent or greater for any consecutive six-minute period from any emission source subject to this Subpart.

2. Compliance shall be determined using EPA Method 9. Testing shall be conducted at the request of the Department.

Parameter Monitored: OPACITY
Upper Permit Limit: 20 percent
Reference Test Method: 40CFR Part 60 Appendix A Method 9
Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
Averaging Method: 6-MINUTE AVERAGE (METHOD 9)
Reporting Requirements: ONCE / BATCH OR MONITORING OCCURRENCE

Condition 11: Compliance Demonstration Effective for entire length of Permit

Applicable Federal Requirement: 6 NYCRR 228-1.3 (b) (1)
Item 11.1:
The Compliance Demonstration activity will be performed for the Facility.

Item 11.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES
Monitoring Description:
The owner or operator must maintain and, upon request, provide the department with a certification which lists the parameters used to determine the actual VOC content of each as applied coating used at the facility. In addition, purchase, usage and/or production records of the coating material, including solvents, must be maintained in a format acceptable to the department and, upon request, these records must be submitted to the department within 90 days of receiving the request. Any additional information required to determine compliance with this Part must be provided to the department in a format acceptable to the department. All records required by this paragraph must be maintained at the facility for a period of five years.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
Reporting Requirements: UPON REQUEST BY REGULATORY AGENCY

Condition 12: Compliance Demonstration
Effective for entire length of Permit

Applicable Federal Requirement: 6 NYCRR 228-1.6 (f)

Item 12.1:
The Compliance Demonstration activity will be performed for the facility:
The Compliance Demonstration applies to:

Emission Unit: 1-LTHBT  Emission Point: STCK4

Item 12.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES
Monitoring Description:
1. The owner or operator shall install, calibrate, operate and maintain a device for measuring and recording the exhaust gas temperature of the refrigerated condenser.

2. The condenser shall be operated at or below the temperature recorded during the most recent compliant emission test, looking forward, at all times when NMP is used in the coating formulation. The averaging period shall be each three hour block period.

3. The owner or operator shall notify the DEC of each period when the condenser outlet temperature does not satisfy the criteria in Item 1 above, including discharges when the condenser is not operating. Such notifications shall be made no later than 48 hours after becoming aware of such occurrence, and shall be reported in writing no later
than 30 days after such occurrence. The notification shall state the date and time of such period of noncompliance, the duration of such excess emission, the cause and the corrective action taken, if any.

3. The owner or operator shall, in the annual certification, state whether he or she has complied with this requirement.

Monitoring Frequency: CONTINUOUS
Reporting Requirements: ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
Subsequent reports are due every 12 calendar month(s).

**** Emission Unit Level ****

Condition 13: Compliance Demonstration
Effective for entire length of Permit

Applicable Federal Requirement: 6 NYCRR 228-1.3 (d)

Item 13.1:
The Compliance Demonstration activity will be performed for:

   Emission Unit: 1-LTHBT
   Process: CAT  Emission Source: CATCT

Item 13.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES
Monitoring Description:
Within the work area(s) associated with a coating line, the owner or operator of a facility subject to this Subpart must:
(a) use closed, non-leaking containers to store or dispose of cloth or other absorbent applicators impregnated with VOC solvents that are used for surface preparation, cleanup or coating removal;
(b) store in closed, non-leaking containers spent or fresh VOC solvents to be used for surface preparation, cleanup or coating removal;
(c) not use VOC solvents to cleanup spray equipment unless equipment is used to collect the cleaning compounds and to minimize VOC evaporation;
(d) not use open containers to store or dispense surface coatings and/or inks unless production, sampling, maintenance or inspection procedures require operational access. This provision does not apply to the actual device or equipment designed for the purpose of applying a coating material to a substrate. These devices may include, but are not limited to: spray guns, flow coaters, dip tanks, rollers, knife coaters, and extrusion coaters;
(e) not use open containers to store or dispose of spent surface coatings, or spent VOC solvents;
(f) minimize spills during the handling and transfer of coatings and VOC solvents; and
(g) clean hand held spray guns by one of the following:
   (1) an enclosed spray gun cleaning system that is kept closed when not
   in use;
   (2) non-atomized discharge of VOC solvent into a paint waste container
   that is kept closed when not in use;
   (3) disassembling and cleaning of the spray gun in a vat that is kept closed
   when not in use; or
   (4) atomized spray into a paint waste container that is fitted with a
device designed to capture atomized VOC solvent emissions.

Open containers, if found, shall be covered and such deviations shall
be noted in a log maintained in the operating area. The log shall
include the following information:
   - date and time of observation
   - description of observed deviation from this permit condition
   - corrective measures taken, if necessary

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
Reporting Requirements: ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
Subsequent reports are due every 12 calendar month(s).

Condition 14: Compliance Demonstration
   Effective for entire length of Permit

Applicable Federal Requirement: 6 NYCRR 228-1.5 (c)

Item 14.1:
The Compliance Demonstration activity will be performed for:

   Emission Unit: 1-LTHBT
   Process: CAT
   Emission Source: CATCT

   Regulated Contaminant(s):
   CAS No: 0NY998-00-0  VOC

Item 14.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: INTERMITTENT EMISSION TESTING
Monitoring Description:
The overall removal efficiency of an air cleaning device used as a
control strategy must be determined, for every surface coating
formulation, on a solids as applied basis using Equation 2 unless a 90
percent or greater overall removal efficiency is achieved by the air
cleaning device as determined by Equation 2 presented under an
Optional Condition.

As per 6 NYCRR 228-1.3(b)(1), a facility owner or operator must
maintain a record that identifies each air cleaning device that has an
overall removal efficiency of at least 90 percent. Any additional information required to determine compliance with this Part must be provided to the department in a format acceptable to the department. All records required by this condition must be maintained at the facility for a period of five years.

Parameter Monitored: VOC
Lower Permit Limit: 90 percent degree of air cleaning or greater
Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
Reporting Requirements: AS REQUIRED - SEE MONITORING DESCRIPTION

**Condition 15: Compliance Demonstration**

**Effective for entire length of Permit**

**Applicable Federal Requirement:** 6 NYCRR 212-2.1 (b)

**Item 15.1:**
The Compliance Demonstration activity will be performed for:

- Emission Unit: 1-LTHBT
- Emission Point: STCK5
- Regulated Contaminant(s):
  - CAS No: 000096-49-1
  - 1,3-DIOXOLAN-2-ONE

**Item 15.2:**
Compliance Demonstration shall include the following monitoring:

**Monitoring Type:** INTERMITTENT EMISSION TESTING

**Monitoring Description:**
1. The facility owner or operator shall achieve overall 90% control of the total carbonate emissions used in the electrolyte filling process. This applies to the various carbonate compounds used in the electrolyte filling.

2. The facility owner or operator must demonstrate compliance with this emission limit by conducting a stack test in accordance with a protocol approved by the department and 6NYCRR 202-1 once every 5 years or at any other time required by the DEC.

3. The facility owner or operator must report the emissions in the annual compliance report.

**Parameter Monitored:** 1,3-DIOXOLAN-2-ONE
**Lower Permit Limit:** 90 percent by weight
**Reference Test Method:** EPA Method 18 or 320 or DEC approved
**Monitoring Frequency:** Once every five years
**Averaging Method:** Arithmetic average of stack test runs
**Reporting Requirements:** ANNUALLY (CALENDAR)
**Reports due:** 30 days after the reporting period.
**Subsequent reports are due every 12 calendar month(s).**

**Condition 16: Compliance Demonstration**

**Effective for entire length of Permit**
Applicable Federal Requirement: 6 NYCRR 212-2.1 (b)

Item 16.1:
The Compliance Demonstration activity will be performed for:

- Emission Unit: 1-LTHBT
- Emission Point: STCK5
- Regulated Contaminant(s):
  - CAS No: 000096-49-1, 1,3-DIOXOLAN-2-ONE

Item 16.2:
Compliance Demonstration shall include the following monitoring:

- Monitoring Type: INTERMITTENT EMISSION TESTING
- Monitoring Description:
  1. The facility owner or operator shall not exceed 18.6 pounds per hour of the total carbonate emissions used in the electrolyte filling process. This applies to the various carbonate compounds used in the electrolyte filling.
  2. The facility owner or operator must demonstrate compliance with this emission limit by conducting a stack test in accordance with a protocol approved by the department and 6NYCRR 202-1 once every 5 years or at any other time required by the DEC.
  3. The facility owner or operator must report the emissions in the annual compliance report.

Parameter Monitored: 1,3-DIOXOLAN-2-ONE
- Upper Permit Limit: 18.6 pounds per hour
- Reference Test Method: EPA Method 18 or 320 or DEC approved
- Monitoring Frequency: Once every five years
- Averaging Method: Arithmetic average of stack test runs
- Reporting Requirements: ANNUALLY (CALENDAR)
- Reports due 30 days after the reporting period.
- Subsequent reports are due every 12 calendar month(s).

Condition 17: Compliance Demonstration Effective for entire length of Permit

Applicable Federal Requirement: 6 NYCRR 212-2.1 (b)

Item 17.1:
The Compliance Demonstration activity will be performed for:

- Emission Unit: 1-LTHBT
- Emission Point: STCK6
- Regulated Contaminant(s):
  - CAS No: 000067-64-1, DIMETHYL KETONE

Item 17.2:
Compliance Demonstration shall include the following monitoring:
Monitoring Type: MONITORING OF PROCESS OR CONTROL DEVICE PARAMETERS AS SURROGATE

Monitoring Description:
1. The facility owner or operator shall not allow emissions of acetone in excess of 9.5 pounds per hour.

2. Compliance shall be demonstrated through a mass balance assuming all acetone used in the pouch packaging process are emitted through stack6. The owner or operator may develop an emission factor, subject to the approval of the DEC, to be used to compute emissions and maintain records sufficient to determine emissions.

3. The owner or operator shall maintain records of the mass of acetone used for the pouch packaging process.

4. The owner or operator shall report the calculated acetone emissions in the annual compliance report.

Parameter Monitored: DIMETHYL KETONE
Upper Permit Limit: 9.5 pounds per hour
Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
Averaging Method: AVERAGING METHOD - SEE MONITORING DESCRIPTION
Reporting Requirements: ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
Subsequent reports are due every 12 calendar month(s).
STATE ONLY ENFORCEABLE CONDITIONS

**** Facility Level ****

NOTIFICATION OF GENERAL PERMITTEE OBLIGATIONS
This section contains terms and conditions which are not federally enforceable. Permittees may also have other obligations under regulations of general applicability.

Item A: Emergency Defense - 6 NYCRR 201-1.5

An emergency, as defined in 6 NYCRR subpart 201-2, constitutes an affirmative defense to penalties sought in an enforcement action brought by the department for noncompliance with emissions limitations or permit conditions for all facilities in New York State.

(a) The affirmative defense of emergency shall demonstrate, through properly signed, contemporaneous operating logs, or other relevant evidence that:

(1) an emergency occurred and that the facility owner or operator can identify the cause(s) of the emergency;
(2) the equipment at the facility was being properly operated and maintained;
(3) during the period of the emergency the facility owner or operator took all reasonable steps to minimize the levels of emissions that exceeded the emission standards, or other requirements in the permit; and
(4) the facility owner or operator notified the department within two working days after the event occurred. This notice must contain a description of the emergency, any steps taken to mitigate emissions, and any corrective actions taken.

(b) In any enforcement proceeding, the facility owner or operator seeking to establish the occurrence of an emergency has the burden of proof.

(c) This provision is in addition to any emergency or malfunction provision contained in any applicable requirement.

Item B: Public Access to Recordkeeping for Facilities With State Facility Permits - 6 NYCRR 201-1.10 (a)
Where facility owners and/or operators keep records pursuant to compliance with the requirements of 6 NYCRR Subpart 201-5.4, and/or the emission capping requirements of 6 NYCRR Subpart 201-7, the Department will make such records available to the public upon request in accordance with 6 NYCRR Part 616 - Public Access to Records. Facility owners and/or operators must submit the records required to comply with the request within sixty working days of written notification by the Department.

Item C: General Provisions for State Enforceable Permit Terms and Condition - 6 NYCRR Part 201-5
Any person who owns and/or operates stationary sources shall operate and maintain all emission units and any required emission control devices in compliance with all applicable Parts of this Chapter and existing laws, and shall operate the facility in accordance with all criteria, emission limits, terms, conditions, and standards in this permit. Failure of such person to properly operate and maintain the effectiveness of such emission units and emission control devices may be sufficient reason for the Department to revoke or deny a permit.

The owner or operator of the permitted facility must maintain all required records on-site for a period of five years and make them available to representatives of the Department upon request. Department representatives must be granted access to any facility regulated by this Subpart, during normal operating hours, for the purpose of determining compliance with this and any other state and federal air pollution control requirements, regulations or law.

**STATE ONLY APPLICABLE REQUIREMENTS**

The following conditions are state only enforceable.

**Condition 18: Contaminant List**

**Effective for entire length of Permit**

**Applicable State Requirement:** ECL 19-0301

**Item 18.1:** Emissions of the following contaminants are subject to contaminant specific requirements in this permit (emission limits, control requirements or compliance monitoring conditions).

- CAS No: 000067-64-1  
  Name: DIMETHYL KETONE

- CAS No: 000092-52-4  
  Name: 1,1 BIPHENYL

- CAS No: 000096-49-1  
  Name: 1,3-DIOXOLAN-2-ONE

- CAS No: 000872-50-4  
  Name: 1-METHYL-2-PYRROLIDONE

- CAS No: 0NY075-00-0  
  Name: PARTICULATES

- CAS No: 0NY998-00-0  
  Name: VOC

**Condition 19: Malfunctions and Start-up/Shutdown Activities**

**Effective for entire length of Permit**
Applicable State Requirement: 6 NYCRR 201-1.4

Item 19.1:
(a) The facility owner or operator shall take all necessary and appropriate actions to prevent the emission of air pollutants that result in contravention of any applicable emission standard during periods of start-up, shutdown, or malfunction.

(b) The facility owner or operator shall compile and maintain records of all equipment maintenance and start-up/shutdown activities when they are expected to result in an exceedance of any applicable emission standard, and shall submit a report of such activities to the department when required by a permit condition or upon request by the department. Such reports shall state whether an exceedance occurred and if it was unavoidable, include the time, frequency and duration of the exceedence, and an estimate of the emission rates of any air contaminants released. Such records shall be maintained for a period of at least five years and made available for review to department representatives upon request. Facility owners or operators subject to continuous monitoring and quarterly reporting requirements need not submit additional reports of exceedences to the department.

(c) In the event that air contaminant emissions exceed any applicable emission standard due to a malfunction, the facility owner or operator shall notify the department as soon as possible during normal working hours, but not later than two working days after becoming aware that the malfunction occurred. In addition, the facility owner or operator shall compile and maintain a record of all malfunctions. Such records shall be maintained at the facility for a period of at least five years and must be made available to the department upon request. When requested by the department, the facility owner or operator shall submit a written report to the department describing the malfunction, the corrective action taken, the air contaminants emitted, and the resulting emission rates and/or opacity.

(d) The department may also require the facility owner or operator to include, in reports described under Subdivisions (b) and (c) of this Section, an estimate of the maximum ground level concentration of each air contaminant emitted and the effect of such emissions.

(e) A violation of any applicable emission standard resulting from start-up, shutdown, or malfunction conditions at a permitted or registered facility may not be subject to an enforcement action by the department and/or penalty if the department determines, in its sole discretion, that such a violation was unavoidable. The actions and recordkeeping and reporting requirements listed above must be adhered to in such circumstances.

Condition 20: Emission Unit Definition
Effective for entire length of Permit

Applicable State Requirement: 6 NYCRR Subpart 201-5

Item 20.1:
The facility is authorized to perform regulated processes under this permit for:
   Emission Unit: 1-LTHTB
   Emission Unit Description:
   The emission unit consists of lithium-ion battery production operations including the following emission sources: cathode and anode coating mixing; cathode coating application lines; electrolyte filling
operations; blanking operations; pouch packaging operations and automated welding operations.

Building(s): 48_53

**Condition 21:** Compliance Demonstration
Effective for entire length of Permit

**Applicable State Requirement:** 6 NYCRR Subpart 201-5

**Item 21.1:**
The Compliance Demonstration activity will be performed for the Facility.

**Item 21.2:**
Compliance Demonstration shall include the following monitoring:

- **Monitoring Type:** RECORD KEEPING/MAINTENANCE PROCEDURES
- **Monitoring Description:** The facility must submit to the Department the following information before commencing operations of the facility.
  1. Vender Guarantees for each control device specifying the control efficiency.
  2. An operations and maintenance plan for the negative pressure mixing room.

- **Monitoring Frequency:** AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION
- **Reporting Requirements:** ANNUALLY (CALENDAR)
  Reports due 30 days after the reporting period.
  Subsequent reports are due every 12 calendar month(s).

**Condition 22:** Renewal deadlines for state facility permits
Effective for entire length of Permit

**Applicable State Requirement:** 6 NYCRR 201-5.2 (c)

**Item 22.1:**
The owner or operator of a facility having an issued state facility permit shall submit a complete application at least 180 days, but not more than eighteen months, prior to the date of permit expiration for permit renewal purposes.

**Condition 23:** Compliance Demonstration
Effective for entire length of Permit

**Applicable State Requirement:** 6 NYCRR 201-5.3 (c)

**Item 23.1:**
The Compliance Demonstration activity will be performed for the facility:
The Compliance Demonstration applies to:

- **Emission Unit:** 1-LTHBT
- **Emission Point:** STCK4
Item 23.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: INTERMITTENT EMISSION TESTING
Monitoring Description:
1. The owner/operator shall limit emissions of NMP to 3.72 pounds per hour.
2. The owner/operator shall achieve 100% capture of NMP emissions from the cathode line.
3. Compliance will be demonstrated through emissions testing in accordance with a protocol approved by the DEC and 6NYCRR 202-1. Testing shall be conducted once every 5 years and at any other time determined by the Department.
4. The owner/operator shall report whether they have met this condition in the annual certification.

Parameter Monitored: 1-METHYL-2-PYRROLIDONE
Upper Permit Limit: 3.72 pounds per hour
Reference Test Method: EPA method 18 or 320 or equivalent
Monitoring Frequency: Once every five years
Averaging Method: Arithmetic average of stack test runs
Reporting Requirements: ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
Subsequent reports are due every 12 calendar month(s).

Condition 24: Compliance Demonstration Effective for entire length of Permit

Applicable State Requirement:6 NYCRR 201-5.3 (c)

Item 24.1:
The Compliance Demonstration activity will be performed for the facility:
The Compliance Demonstration applies to:

Emission Unit: 1-LTHBT Emission Point: STCK4

Regulated Contaminant(s):
CAS No: 000872-50-4 1-METHYL-2-PYRROLIDONE

Item 24.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: INTERMITTENT EMISSION TESTING
Monitoring Description:
1. The owner/operator shall achieve an overall capture and reduction efficiency of 99.9% (by weight) of NMP.
2. The owner/operator shall achieve 100% capture and condenser reduction of NMP emissions from the cathode line.

3. The condenser shall reduce NMP emissions by 99.0 percent by weight.

4. Ninety-five percent of the condenser exhaust shall be recirculated to the cathode drying oven when NMP is used.

3. Compliance will be demonstrated through emissions testing in accordance with a protocol approved by the DEC and 6NYCRR 202-1. Testing shall be conducted once every 5 years and at any other time determined by the Department.

4. The owner/operator shall report whether they have met this condition in the annual certification.

Parameter Monitored: 1-METHYL-2-PYRROLIDONE
Upper Permit Limit: 99.9 percent by weight
Reference Test Method: EPA method 18 or 320 or equivalent
Monitoring Frequency: Once every five years
Averaging Method: Arithmetic average of stack test runs
Reporting Requirements: ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period. Subsequent reports are due every 12 calendar month(s).

Condition 25: Compliance Demonstration Effective for entire length of Permit

Applicable State Requirement: 6 NYCRR 201-5.3 (c)

Item 25.1:
The Compliance Demonstration activity will be performed for the facility:
The Compliance Demonstration applies to:

Emission Unit: 1-LTHBT  Emission Point: STCK7
Emission Unit: 1-LTHBT  Emission Point: STCK8

Regulated Contaminant(s):
CAS No: 000067-64-1  DIMETHYL KETONE

Item 25.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: INTERMITTENT EMISSION TESTING
Monitoring Description:
1. The owner/operator shall achieve an overall destruction efficiency of 99% (by weight) of acetone.

2. The owner/operator shall achieve 100% capture of acetone emissions from the cathode line.
3. Compliance will be demonstrated through emissions testing in accordance with a protocol approved by the DEC and 6NYCRR 202-1. Testing shall be conducted once every 5 years and at any other time determined by the Department.

4. The owner/operator shall report whether they have met this condition in the annual certification.

Parameter Monitored: DIMETHYL KETONE
Upper Permit Limit: 99 percent by weight
Reference Test Method: EPA method 18 or 320 or equivalent
Monitoring Frequency: Once every five years
Averaging Method: Arithmetic average of stack test runs
Reporting Requirements: ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
Subsequent reports are due every 12 calendar month(s).

**Condition 26:** Compliance Demonstration
Effective for entire length of Permit

**Applicable State Requirement:** 6 NYCRR 201-5.3 (c)

**Item 26.1:**
The Compliance Demonstration activity will be performed for the Facility.

**Item 26.2:**
Compliance Demonstration shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES
Monitoring Description:
Any reports or submissions required by this permit shall be submitted to the Regional Air Pollution Control Engineer (RAPCE) at the following address:

Division of Air Resources
NYS Dept. of Environmental Conservation
Region 7
615 Erie Blvd West
Syracuse, NY 13204

Monitoring Frequency: ANNUALLY
Reporting Requirements: ANNUALLY (CALENDAR)
Reports due 30 days after the reporting period.
Subsequent reports are due every 12 calendar month(s).

**Condition 27:** Air pollution prohibited
Effective for entire length of Permit

**Applicable State Requirement:** 6 NYCRR 211.1

**Item 27.1:**
No person shall cause or allow emissions of air contaminants to the outdoor atmosphere of such
quantity, characteristic or duration which are injurious to human, plant or animal life or to property, or which unreasonably interfere with the comfortable enjoyment of life or property. Notwithstanding the existence of specific air quality standards or emission limits, this prohibition applies, but is not limited to, any particulate, fume, gas, mist, odor, smoke, vapor, pollen, toxic or deleterious emission, either alone or in combination with others.

**Condition 28: Compliance Demonstration**

**Effective for entire length of Permit**

**Applicable State Requirement:** 6 NYCRR 212-2.1

**Item 28.1:**
The Compliance Demonstration activity will be performed for the Facility.

**Item 28.2:**
Compliance Demonstration shall include the following monitoring:

Monitoring Type: RECORD KEEPING/MAINTENANCE PROCEDURES

Monitoring Description:
1. Facility-wide annual emissions shall not exceed the mass emission limits (MEL) listed in 6NYCRR 212-2.2 Table 2. For those contaminants that do not have a MEL, no emissions are allowed.

2. The owner/operator shall state, in the annual certification, whether the facility is in compliance with this provision.

Monitoring Frequency: AS REQUIRED - SEE PERMIT MONITORING DESCRIPTION

Reporting Requirements: ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.

Subsequent reports are due every 12 calendar month(s).

**** Emission Unit Level ****

**Condition 29: Emission Point Definition By Emission Unit**

**Effective for entire length of Permit**

**Applicable State Requirement:** 6 NYCRR Subpart 201-5

**Item 29.1:**
The following emission points are included in this permit for the cited Emission Unit:

**Emission Unit:** 1-LTHBT

**Emission Point:** STCK4
- Height (ft.): 10
- Diameter (in.): 5
- NYTMN (km.): 4662.261
- NYTME (km.): 413.363
- Building: 48_53

**Emission Point:** STCK5
- Height (ft.): 10
- Diameter (in.): 8
**Condition 30: Process Definition By Emission Unit**

**Effective for entire length of Permit**

**Applicable State Requirement:** 6 NYCRR Subpart 201-5

**Item 30.1:**
This permit authorizes the following regulated processes for the cited Emission Unit:

- **Emission Unit:** 1-LTHBT
- **Process:** CAT
- **Source Classification Code:** 3-09-011-99
- **Process Description:**
  Process CAT includes a coating application line. The emissions generated by the coating application line are directed to a condenser when operating using an NMP based coating and to a series of RTO's when operating using an acetone based coating.

- **Emission Source/Control:** COND1 - Control
  - **Control Type:** REFRIGERATED CONDENSER

- **Emission Source/Control:** RTO01 - Control
  - **Control Type:** THERMAL OXIDATION

- **Emission Source/Control:** RTO02 - Control
  - **Control Type:** THERMAL OXIDATION

- **Emission Source/Control:** CATCT - Process

**Item 30.2:**
This permit authorizes the following regulated processes for the cited Emission Unit:

- **Emission Unit:** 1-LTHBT
- **Process:** DST
- **Source Classification Code:** 4-90-002-07
- **Process Description:**
  Process DST consists of a n-methylpyrrolidone distilation operation.
Item 30.3:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-LTHBT
Process: ELC  
Source Classification Code: 3-09-011-99
Process Description:
Process ELC consists of electrolyte filling operations. Emissions are directed to a condenser

Emission Source/Control: COND3 - Control
Control Type: REFRIGERATED CONDENSER

Emission Source/Control: ELCFL - Process

Item 30.4:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-LTHBT
Process: FUG  
Source Classification Code: 3-09-011-99
Process Description:
Raw material handling, welding and blanking operations that vent to fume and dust collectors and vent inside.

Emission Source/Control: DUST1 - Control
Control Type: FABRIC FILTER

Emission Source/Control: DUST2 - Control
Control Type: FABRIC FILTER

Emission Source/Control: DUST3 - Control
Control Type: FABRIC FILTER

Emission Source/Control: DUST4 - Control
Control Type: FABRIC FILTER

Emission Source/Control: HEPA1 - Control
Control Type: HIGH EFFICIENCY PARTICULATE AIR FILTER

Emission Source/Control: HEPA2 - Control
Control Type: HIGH EFFICIENCY PARTICULATE AIR FILTER

Emission Source/Control: HEPA3 - Control
Control Type: HIGH EFFICIENCY PARTICULATE AIR FILTER

Emission Source/Control: ANOMH - Process

Emission Source/Control: BLNK1 - Process

Emission Source/Control: BLNK2 - Process

Emission Source/Control: CATMH - Process
Emission Source/Control: WELD1 - Process
Emission Source/Control: WELD2 - Process
Emission Source/Control: WELD3 - Process

Item 30.5:
This permit authorizes the following regulated processes for the cited Emission Unit:

Emission Unit: 1-LTHBT
Process: PCH
Source Classification Code: 3-09-011-99
Process Description:
Process PCH consists of pouch packaging operations.

Emission Source/Control: PCHPK - Process

Condition 31: Compliance Demonstration
Effective for entire length of Permit

Applicable State Requirement: NYCRR 201-5.3 (c)

Item 31.1:
The Compliance Demonstration activity will be performed for:

Emission Unit: 1-LTHBT
Emission Point: STCK5
Regulated Contaminant(s):
CAS No: 000092-52-4 1, 1 BIPHENYL

Item 31.2:
Compliance Demonstration shall include the following monitoring:

Monitoring Type: INTERMITTENT EMISSION TESTING
Monitoring Description:
1. The facility owner or operator shall not exceed 0.141 pounds per hour of biphenyl emissions used in the electrolyte filling process.

2. The facility owner or operator must demonstrate compliance with this emission limit by conducting a stack test in accordance with a protocol approved by the department and 6NYCRR 202-1 once every 5 years or at any other time required by the DEC.

3. The facility owner or operator must report the emissions in the annual compliance report.

Parameter Monitored: 1, 1 BIPHENYL
Upper Permit Limit: 0.141 pounds per hour
Reference Test Method: EPA Method 18 or 320 or DEC approved
Monitoring Frequency: Once every five years
Averaging Method: Arithmetic average of stack test runs
Reporting Requirements: ANNually (CALENDAR)
Reports due 30 days after the reporting period.
Subsequent reports are due every 12 calendar month(s).

**Condition 32: Compliance Demonstration**
Effective for entire length of Permit

**Applicable State Requirement:** 6 NYCRR 201-5.3 (c)

**Item 32.1:**
The Compliance Demonstration activity will be performed for:

- **Emission Unit:** 1-LTHBT  
- **Emission Point:** STCK5

**Regulated Contaminant(s):**
- **CAS No:** 000092-52-4  
  1, 1 BIPHENYL

**Item 32.2:**
Compliance Demonstration shall include the following monitoring:

**Monitoring Type:** INTERMITTENT EMISSION TESTING

**Monitoring Description:**
1. The facility owner or operator shall achieve overall 90% control of the total biphenyl emissions used in the electrolyte filling process.

2. The facility owner or operator must demonstrate compliance with this emission limit by conducting a stack test in accordance with a protocol approved by the department and 6NYCRR 202-1 once every 5 years or at any other time required by the DEC.

3. The facility owner or operator must report the emissions in the annual compliance report.

**Parameter Monitored:** 1, 1 BIPHENYL

**Lower Permit Limit:** 90 percent by weight

**Reference Test Method:** EPA Method 18 or 320 or DEC approved

**Monitoring Frequency:** Once every five years

**Averaging Method:** Arithmetic average of stack test runs

**Reporting Requirements:** ANNUALLY (CALENDAR)

Reports due 30 days after the reporting period.
Subsequent reports are due every 12 calendar month(s).
