Conservation**

APPLICATION FOR PERMIT
FOR THE CONSTRUCTION, RECONSTRUCTION OR EXPANSION OF
DOCKING AND MOORING FACILITIES
(Including Platforms and Breakwaters)

Supplement D-2

Please read all instructions on the following page.
TYPE OR PRINT CLEARLY IN INK.
Attach additional information as needed.

FOR AGENCY USE ONLY
DEC APPLICATION NUMBER:
U.S. ARMY CORPS OF ENGINEERS APPLICATION NUMBER:

PROJECT CONSTRUCTION DESCRIPTION:			
1. TYPE OF ACTIVITY:			
New Facility Construction	Substantial Reconstruction	Expansion	Change in Use
2. CAPACITY OF DOCKING FACILITY OR MOORING AREA:			
Maximum number of boats to be docked:			
Maximum number of boats to be moored:			
Boat type and size ranges to be served:			
Total surface area of facility perimeter:		square feet	
3. IDENTIFY STRUCTURE TYPES AND THE USE OF SUCH STRUCTURES, INCLUDE SIZE, TYPE OF CONSTRUCTION AND MATERIALS TO BE USED, IF SUBSTANTIAL RECONSTRUCTION IS REQUIRED, EXPLAIN EXTENT OF ACTIVITY INCLUDING PERCENTAGE OF THE TOTAL STRUCTURE SIZE AFFECTED.			
(continue on attached sheet if necessary)			
4. FOR NEW FACILITY, EXPANSION OF EXISTING FACILITY OR CHANGE IN USE, CHECK APPROPRIATE ITEMS AND DESCRIBE THE SERVICES TO BE PROVIDED:			
Water Supply:			
Sewage Disposal:			
Electrical Supply:			
Gas Supply:			
Gasoline/Oil Supply:			
Other:			
(continue on attached sheet if necessary)			
5. SIGNATURE:			DATE:

APPLICABILITY

1. The construction, reconstruction or expansion of docking or mooring facilities on, in or above state-owned lands under water requires authorization from the New York State Office of General Services. For application requirements contact: New York State Office of General Services, Division of Real Property Planning, Bureau of Land Management, Empire State Plaza, Corning Tower, 26th Floor, Albany, NY 12242. A permit pursuant to Article 15, Title 5 of the Environmental Conservation Law may not be required from the Department of Environmental Conservation in these circumstances.
2. The determination that no permit is required from the New York State Department of Environmental Conservation does not necessarily mean that no permit is required from the United States Army Corps of Engineers. All parties considering constructing projects within the navigable waters of the State should consult directly with the United States Army Corps of Engineers to accurately determine what requirements apply.

INSTRUCTIONS

1. Application shall include four (4) copies of this form, a map showing the facility location, scaled plans, cross-sections and specifications depicting all major structures and the delineated facility perimeters that include a reference point tied to a permanent structure or significant natural features.
2. This application must be accompanied by a New York State Department of Environmental Conservation JOINT APPLICATION FOR PERMIT (95-19-3).
3. Applications shall be submitted to the Regional Permit Administrator at the appropriate office of the Department, as indicated on the JOINT APPLICATION FOR PERMIT.
4. Construction, reconstruction or installation of docking and mooring structures shall NOT be started until a permit authorizing such activity has been issued by the New York State Department of Environmental Conservation.
5. The following definitions as listed in 6 NYCRR Part 608.1 apply.

Docking Facility means any marine, boat basin, marine terminal, and any other areas on navigable waters containing a single structure or a collection of related structures, such as docks, piers, platforms, bulkheads, breakwaters, and pilings, used for the reception, securing, and protection of boats, ships, barges or other water craft.

Mooring means a float, buoy, chain, cable, rope, pile, spar, dolphin or any other device or combination of devices that are anchored or fixed in navigable waters of the state to which a vessel can be made fast.

Mooring Area means a collection of individual moorings located within a definable area of navigable waters of the state and under single private ownership or control.

Perimeter means a boundary of a docking facility or mooring area consisting of a series of connected imaginary lines on a plan or map, encompassing all related structures such as docks, bulkheads, breakwaters, pilings, piers, platforms or moorings and the travel lanes and berthing areas that function together to create a facility or area at which vessels may be docked or moored.

Platform means a generally horizontal, flat surface located in, on or over a waterbody, on which structures can be constructed or any activities can be conducted.

Substantial reconstruction of structures means restoration or rebuilding, involving fifty percent (50%) or more of an existing fixed structure's surface area.
