Schenectady, NY 12306,

Respondent.

WHEREAS:

Jurisdiction

1. The New York State Department of Environmental Conservation (Department) is the State agency with jurisdiction over the environmental law and policy of the State pursuant to §33-0301 of the Environmental Conservation Law (“ECL”), among other authorities. The Department is and has been responsible for the regulation of the use, and for the enforcement of the provisions of law governing the use of pesticides in the State pursuant to ECL Article 33 and the rules and regulations promulgated thereunder at Title 6 of the Official Compilation of Codes, Rules and Regulations of the State of New York (6 NYCRR) Part 325.
2. Respondent, T & P Lawn and Landscape, Inc., is a domestic corporation engaged in the commercial pest control business in the State of New York.
3. Respondent is a person as defined in ECL § 33-0101(33).

VIOLATIONS

4. On March 27, 2018, Department staff conducted a routine compliance inspection of Respondent’s facility and records.
5. During the March 27, 2018 inspection, Department staff discovered that on August 10, 2015, Respondent applied the pesticide Insecticide III (EPA #9198-167) to a residential property at a rate of approximately 1.9 lbs./1000 sq. ft.

6. The product label for Insecticide III states “FOR USE ON GOLF COURSE TURF ONLY.”

7. The product label for Insecticide III specifies a maximum application rate of 1.7 lbs./1000 sq.ft.

8. Regulations at 6 NYCRR § 325.2(b) state that “Pesticides are to be used only in accordance with label and labeling directions or as modified or expanded and approved by the department.”

9. Respondent’s failure to apply a pesticide in accordance with its labeling directions is a violation of 6 NYCRR § 325.2(b).

10. During the March 27, 2018 inspection, Department staff observed that all of Respondent’s records from the years 2015 to 2017 failed to include the method of application and place of application.

11. During the March 27, 2018 inspection, Department staff observed that many of Respondent’s records from the years 2015 to 2017 failed to include the target organism.

12. Regulations at 6 NYCRR § 325.25(a) require all pesticide business to “keep true and accurate records in a manner specified by the department showing: the kind and quantity of each pesticide used; dosage rates; methods of application; target organisms; and the use, date and place of application for each pesticide used. These records shall be maintained on an annual basis and retained for a minimum of three years and shall be available for inspection upon request by the department.”

13. Respondent’s failure to keep true and accurate records regarding the method(s) and place(s) of application, and target organism(s), constitute violations of 6 NYCRR § 325.25(a).

14. During the March 27, 2018 inspection, Department staff examined a representative sample of Respondent’s written commercial lawn application contracts and observed that the sample failed to include the following required information:

- the approximate date(s) of application (only the month was provided);
- the statement: “The property owner or owner's agent may request the specific date or dates of the application(s) to be provided and, if so requested, the pesticide applicator or business must inform of the specific dates and include that date or dates in the contract;”
- the total number of commercial lawn applications to be provided;

- the warnings that appear on the label(s) of pesticide(s) to be applied that are pertinent to the protection of humans, animals or the environment;
- the business registration number and applicator certification number; and
- the signature of the pesticide business or applicator.

15. Regulations at 6 NYCRR § 325.40(a) provide, in relevant part:
