Discussion Summary:

I. Welcome – The Paige Group
   a. Facilitator — The Paige Group
      i. The Facilitator provided an overview of meeting agenda and noted opportunities for comments from community members in the audience

II. CPWG Reports to NYSDEC
   The following are excerpts from the CPWG reports to NYSDEC:
   a. Current water system related questions/concerns
      i. The facilitator reviewed questions/concerns expressed to date by the CPWG that included the following topics:
         1. Maintenance of current village water system
         2. Existing water pressure issues
         3. Long-term town solution
         4. Access to private property test results
         5. Community compensation
      ii. The facilitator will finalize based on CPWG discussion and submit to NYSDEC on behalf of the CPWG
   b. CPWG feedback on the water study (to date)
      i. Data/information requests:
         1. Cost of raw water and finished water from Troy
         2. Cost comparison for each option (current versus new rates)
         3. Air deposition study status
         4. Long-term option for town residents
         5. Community feedback received by NYSDEC to date
         6. Soil samples between Hoosick Falls and Tomhannock to identify MCLs in soil
Hoosick Area Community Participation Work Group (CPWG)  
Meeting Summary – November 18, 2019

7. In addition to adhering to state and federal water quality standards, what will be the process for adding non-regulated contaminants to the testing process?
8. Develop a plan to inventory lead service lines to ensure there is no increase in lead exposure with a new water source

ii. Feedback to date:
1. The consensus view of the CPWG is that the options presented in the study represent immediate solutions for Hoosick Falls, but not a long-term solution for the region’s water crisis.
2. The CPWG does not view as viable any option that does not maintain the operation and maintenance of the current GAC system.
3. Additionally, the CPWG views Option #1 – LaCroix and Wysocki – as viable if combined with the continued operation of the current GAC system. Thus far, the CPWG has received the same sentiment from public input.
4. Furthermore, the CPWG is requesting assurances that, with any option, the treatment process will meet state and federal water quality standards and will address the special needs of Hoosick Falls, including the growing number of unregulated contaminants.

iii. The facilitator will finalize based on CPWG discussion and submit to NYSDEC on behalf of the CPWG

c. Public Comments/Questions
    1. C: Spectrum News stated that the deadline for public comment on the water study was today, November 18, 2019.

        A: The CPWG will issue a press release reminding the community that the public comment period for the NYSDEC’s Municipal Water Supply Study for the Village of Hoosick Falls has been extended. The NYSDEC will be accepting feedback through close of business Tuesday, December 3, 2019.

III. Additional CPWG Agenda Items

a. Review Draft Bylaws
   i. The facilitator has reviewed draft bylaws with the CPWG and will finalize a draft based on meeting discussion for the CPWG to review and approve at the next CPWG meeting

b. Additional Resources – Short- and long-term needs
   i. The facilitator reviewed requested resources by the CPWG and will finalize and submit to NYSDEC on behalf of the CPWG

c. Meeting Schedule – High school cafeteria at 6 p.m.
   i. 12/11/19 – This date will be rescheduled
   ii. 1/22/20
   iii. 2/19/20 – This date will be rescheduled
