

# “Block Zebra Mussels”

## Volunteer Monitoring Program

Use this page to report that you monitored for zebra mussels

Name: \_\_\_\_\_

Mailing Address: \_\_\_\_\_  
\_\_\_\_\_

Phone: \_\_\_\_\_

Email: \_\_\_\_\_

Lake, bay, town, and place you are monitoring:  
\_\_\_\_\_

Depth of Block: \_\_\_\_\_ feet    GPS location:

Dates of monitoring: \_\_\_\_\_

Notes: \_\_\_\_\_

**If you find zebra mussels on your block, please send an email to Stephanie June and include a photo of the mussels: [stephanie.june@dec.ny.gov](mailto:stephanie.june@dec.ny.gov)**

If you don't find any evidence of zebra mussels, it's still important to know where monitoring occurs.

If you are in the CSLAP program, please send this form in with your last CSLAP sample.

If you are not part of the CSLAP program, please send this report by November 1 each year to Nancy Mueller at:

NYS Federation of Lake Associations (NYSFOLA), PO Box 84, LaFayette, NY 13084

or email a copy to [nysfolanancy@verizon.net](mailto:nysfolanancy@verizon.net)

**Please do NOT send bricks or mussels with the CSLAP water samples.**

GPS of monitoring locations are helpful. If you don't have a GPS, try this trick. Find the spot on google maps: <http://maps.google.com> Place your cursor on the spot, right click and select “directions to here”. The GPS coordinates will show up in the “to” location on the map page.
